

EXPLANATION

- 150— Simulated potentiometric contour—Shows altitude at which water level would have stood in tightly cased wells. Hatchures indicate depression. Contour interval 50 feet. Datum is sea level.
- Boundary of modeled area
- 147 Well used in model calibration—Number is altitude of potentiometric head, in feet above sea level

Base modified from U.S. Geological Survey State base maps: Alabama, 1962; Florida, 1967; Georgia, 1970; and Mississippi, 1972

SIMULATED STEADY-STATE POTENTIOMETRIC SURFACE IN MODEL LAYER A2 (LISBON AQUIFER) WITH LOCATIONS AND POTENTIOMETRIC HEADS OF WELLS USED IN CALIBRATION
