

Figure 2.—Location of seismic sections, wells, and major basement faults of the Rome trough. Modified from Shumaker (1996).

EXPLANATION

-  Rome trough
-  Seismic line
-  Thrust fault—Sawteeth on upper plate
-  Normal fault—From Shumaker (1996). Bar and ball on downthrown side. Dashed where inferred
-  Normal fault—This study. Bar and ball on downthrown side. Dashed where inferred
-  Normal fault—From Shumaker (1996). Red bar and ball shows downthrown side from this study. Dashed where inferred
-  Well location
