USGS QUAD MAP MAMMOTH (1986)
NGS PID PY0129

LATITUDE 44.906531886
LONGITUDE -110.732562807
ELEVATION 2217 m

DATE OF DESCRIPTION 2002

DESCRIPTION Proceed about 6.8 miles south along the Mammoth Hot Springs-Norris Junction highway from the post office at Mammoth Hot Springs. Station is located 0.8 miles south of Swan Lake, 0.1 mile north of where highway leaves a flat area and enters a timbered area, and on the west side of the road. A paved pullout is located on the east side of the road about 50 m north of the station. The bench mark is set in a rock outcrop among a group of boulders (the only outcropping of rock at the south end of Swan Lake flat) which projects about 3 feet, 44 feet west of the center line of the highway, about 200 feet north of a small clearing in the timber, 82 yards south of the north edge of the timber line, in a grove of fir trees, and about 4 1/2 feet above the level of the highway.

Looking north at bench mark (beneath orange hard hat) and along Mammoth-Norris highway.

Looking north from the paved pullout at boulders where the bench mark is located.

Looking south at bench mark (beneath orange hard hat) and paved pullout in the distance (on the other side of the Mammoth-Norris highway).

Close up of bench mark.
