

LAKE ASTRO STATION RESET

STAMPING

USGS QUAD MAP LAKE (1986)

NGS PID PY0949

LATITUDE 44.55468953

LONGITUDE -110.3951003

ELEVATION 2358

DATE OF DESCRIPTION 2002

DESCRIPTION Station is in Lake Village, 45.0 m (147.6 ft) east-southeast of the entrance into the Lake Lodge. Bench mark is a brass plug in the top of an 18- by 24-inch granite block that projects 26 inches above the ground surface. The monument is inscribed altitude 7738.43 on the south side, latitude 44 33 16.1 on the west side, USCG Survey on the north side, and longitude 110 23 43.1 on the east side, and is located 10.0 m (32.8 ft) north of a sign ("Fishing Bridge-West Thumb"), 7.1 m (23.3 ft) east of the centerline of a paved road, and 0.7 m above the road. The district ranger stated that the monument was hit by a car and was repositioned by park surveyors.

Looking west at granite block and the Yellowstone Lake Lodge.

Close up of the top of the granite block and pin which serves as the bench mark.

Looking east from the Yellowstone Lake Lodge entrance stairs at the granite block (near person who is taking a picture of the block).

Close up of pin, which serves as the bench mark, in the top of the granite block.
