USGS QUAD MAP OBSIDIAN CLIFF (1986)

NGS PID N/A

LATITUDE 44.80938

LONGITUDE -110.73528

ELEVATION 2273 m

DATE OF DESCRIPTION 2003

DESCRIPTION Station is 7.3 miles north of Norris Junction on the west side of the Mammoth Hot Springs-Norris Junction highway where power lines cross the road. Bench mark is a FHWA brass cap set in a concrete pier, about 150 feet west of the highway and 3.5 feet north of a witness post.

Looking west along the utility line at bench mark (near witness post).

Close up of bench mark.
