LATITUDE 44.95944

LONGITUDE -110.49194

ELEVATION 2089 m

DATE OF DESCRIPTION 2008

DESCRIPTION Station is located 12.56 mi east of park headquarters in Mammoth Hot Springs along the Mammoth-Tower highway, about 300 ft north of the centerline of the highway at the east end of a high ridge, and set in a concrete monument marked by a metal fence post 1.0 ft to the north. From the bench mark it is 36.1 ft at S41W to a 10" fir and 37.1 ft at S65E to a 10" fir.

In 2008, the bench mark was searched for and not found. The description places the bench mark in a concrete monument at the east end of a "high" (150 feet!) ridge, about 300 feet north of the Mammoth-Tower highway. This seems like an odd location for a bench mark, and none was found on the rocky ridge crest. Also, neither the pullout on south side of road nor the southeastward bend in the road that are shown on the drawing that accompanies the FHWA description were found. This mark is not recoverable with the description as written.
