**LATITUDE** 45.03738  
**LONGITUDE** -110.69489  
**ELEVATION** 1762 m

---

**DATE OF DESCRIPTION** 2008

**DESCRIPTION** Station is located 0.24 miles north of the Yellowstone National Park boundary. To reach the bench mark from US highway 89 in Gardiner, Montana, proceed east on Jardine Road (also called "Fourth St. N" and located north of the highway bridge over the Gardiner River) for 1.07 miles. Bench mark is a standard FHWA brass cap set in a concrete monument marked by a metal fence post 2.3 feet to the SE, about 35 feet north of the centerline of the road on top of a ~15-foot-high cut slope, and about 300 feet above the easterly "G" on the open hillside.

Looking northeast along Jardine road at the bench mark, which is near the metal fence post on the cut bank above the car.

Close up of bench mark.
