USGS QUAD MAP MADISON JUNCTION (1986)

NGS PID PY0761

LATITUDE 44.64077124

LONGITUDE -110.8610902

ELEVATION 2065 m

DATE OF DESCRIPTION 2003

DESCRIPTION Proceed 0.6 km (0.35 mi) south along the Madison-West Thumb highway from Madison Junction. Bench mark is in the top of, and 0.3 m (1.0 ft) south of, the north end of the east walkway of a highway bridge spanning the Gibbon River, 4.9 m (16.1 ft) east of the centerline of the highway, and 0.3 m above the highway.

In 2003 the bench mark was searched for and not found. The bench mark should be obvious, but it is clearly not in the location given by the NGS description, and the bridge looks new suggesting that the mark was destroyed by road work.
