STAMPING B 366 1987
USGS QUAD MAP TOWER JUNCTION (1986)
NGS PID PY0980

LATITUDE 44.9055447
LONGITUDE -110.3996946
ELEVATION 1944 m

DATE OF DESCRIPTION 2002

DESCRIPTION Proceed 2.1 km (1.30 mi) south along the Canyon-Tower highway from the ranger station in Tower Junction. Bench mark is near the southeast end of a 10- by 15-foot rock ledge (there are four large outcrops of jointed lava, and the bench mark is in the third of these outcrops, counting west to east)., 4.6 m (15.1 ft) southwest of the centerline of the highway, 1.2 m (3.9 ft) northwest of the southeast end of the ledge, about 1 m above the highway, and 0.1 mi east of a small pullout that is immediately east of Rainy Lake (which is on the north side of road).

Looking west along highway at bench mark (beneath red flagging roll in outcrop at left-center).

Close up of bench mark (in lower left of photo) looking west along highway.

Looking east along highway at bench mark (beneath red flagging roll in outcrop at right-center).
