

## D339

STAMPING D 339 1983

USGS QUAD MAP MADISON JUNCTION (1986)

NGS PID PY0707

LATITUDE 44.64571551

LONGITUDE -110.8584039

ELEVATION 2075 m

DATE OF DESCRIPTION 2003

DESCRIPTION Bench mark is located at Madison Junction in the northwest corner of the intersection, 24.4 meters (81.1 ft) northeast of the centerline of the westbound lanes of the Madison Junction highway, 13.3 meters (43.6 ft) northwest of the centerline of the southbound lanes of the Norris Junction highway, 7.2 meters (23.6 ft) west of a sign (“west entrance”), and 0.9 m below the highway. Access to the datum point is through a 5-inch logo cap.

Looking southwest from Madison-Norris road at “West Entrance” sign and bench mark (beneath person).

Close up of bench mark.

Looking north from Madison junction at stop sign (for east-bound traffic from West Yellowstone) and bench mark (beneath person).
