

## **F158**

**STAMPING** F 158 1960

**USGS QUAD MAP** NORRIS JUNCTION (1986)

**NGS PID** PY0101

**LATITUDE** 44.683889

**LONGITUDE** -110.744444

**ELEVATION** 2237 m

---

**DATE OF DESCRIPTION** 2003

**DESCRIPTION** Proceed 4.7 mi southwest along the Madison-Norris highway from the junction at Norris. Bench mark is 7.5 feet west of the southwest corner of the southwest stone wingwall of the highway bridge over the Gibbon River, set in the top of a rock outcrop which projects 14 inches, 24 feet west of the centerline of the highway, and about 1.5 feet above the highway.

In 2003 the bench mark was searched for and not found, presumed destroyed by road work. It is not possible that the bench mark is 7.5 ft from the bridge, as described in the NGS description.
