USGS QUAD MAP WEST THUMB (1986)
NGS PID PY0061

LATITUDE 44.384167
LONGITUDE -110.580556
ELEVATION 2415 m

DATE OF DESCRIPTION 2008

DESCRIPTION From West Thumb junction proceed 0.8 mi south on the South Entrance highway to the junction with the old road to the west, thence 1.8 miles south on the old road. Bench mark is 525 ft south of a stream crossing, 50 ft west of the road, 4 ft higher than road, and in the top of a large rock.

In 2008 the bench mark was searched for and not found. The stream crossing was located, but no large boulder is in the vicinity of "525 feet south of stream crossing." This is an area of heavy deadfall, which may be covering the boulder.
