

K367

STAMPING K 367 1987
USGS QUAD MAP CRAIG PASS (1986)
NGS PID PY0790

LATITUDE 44.437778
LONGITUDE -110.725
ELEVATION 2504 m

DATE OF DESCRIPTION 2003

DESCRIPTION Proceed 16.5 (10.25 mi) west along the Madison-West Thumb highway from the junction at West Thumb. Bench mark is in an exposed area of bedrock in a highway cut, 22.5 m (73.8 ft) northeast of the northeast end of a pullout, 47.0 m (154.2 ft) southwest of the northeast end of the cut, 7.1 m (23.3 ft) northwest of the centerline of the highway, and 0.6 m above the highway.

In 2003 the bench mark was searched for and not found, presumed destroyed. The roadcut is very fresh and farther from the highway than the NGS description states. If the highway was widened and the roadcut pushed back, the bench mark would have been destroyed.
