Bench mark is near the center of a shallow rock cut on the crest of a hill, set in the top of a rock outcrop, 18 ft south of the centerline of the highway, 300 ft east of the east end of a small asphalt parking area, 86 ft west of the west end of a stone guard rail, and about 3 ft above the level of the highway.

In 2003 the bench mark was searched for and not found, presumed destroyed by road work. There is no outcrop 18 ft from the centerline of the highway.
