**DATE OF DESCRIPTION** 2002

**DESCRIPTION** Proceed 10.8 km (6.70 mi) north along the Canyon-Tower highway from the junction at Canyon Village. Bench mark is set vertically in the west face of an 8- by 8-foot exposed area of bedrock in a highway cut, 24.5 m (80.4 ft) south of the north end of a log guard rail, 6.1 m (20.0 ft) east of the centerline of the highway, and 1.1 m above the highway.

In 2002 this bench mark was in danger of being destroyed by roadwork. If it falls in the area that will be disturbed it will probably be reset into a boulder on the west side and downslope of the highway.

Looking north along highway at bench mark (near person).
