STAMPING N 366 1987

USGS QUAD MAP MOUNT WASHBURN (1986)

NGS PID PY0997

LATITUDE 44.81339635

LONGITUDE -110.4455907

ELEVATION 2654 m

DATE OF DESCRIPTION 2002

DESCRIPTION Proceed 12.1 km (7.50 mi) north along the Canyon-Tower highway from the junction at Canyon Village. Bench mark is near the center of a 2- by 3-foot area of outcropping bedrock, 20.3 m (66.6 ft) south of the south end of a stone culvert, 6.5 m (21.3 ft) east of the centerline of the highway, and 0.3 m above the highway.

In 2002 this bench mark was in danger of being destroyed by roadwork. If it falls in the area that will be disturbed it will be reset either downslope (on a rod driven to refusal) or into a concrete headwall that would be built as part of the roadwork (elevation would be transferred to a temporary point during road construction).

Looking north along highway at bench mark (near person).
