USGS QUAD MAP WEST THUMB (1986)
NGS PID PY0042

LATITUDE 44.44089
LONGITUDE -110.57334
ELEVATION 2397 m

DATE OF DESCRIPTION 2003

DESCRIPTION Proceed 3.9 km (2.40 mi) north along the West Thumb-Lake highway from the junction at West Thumb. Bench mark is 41.3 m (135.5 ft) north of the northwest end of a stone culvert, 31.3 m (102.7 ft) northwest of the centerline of the highway, 10.2 m (33.5 ft) northeast of the water's edge of a small arm of Lake Yellowstone, and about level with the highway. The cylindrical concrete post is located in heavy trees, making it very hard to locate.

Looking north across highway at culvert headwall and person (pointing to mark, which is about 5 m distant).

Close up of bench mark.
