**USGS QUAD MAP** BEACH LAKE (1986)

**NGS PID** PY0919

**LATITUDE** 44.61083

**LONGITUDE** -110.52833

**ELEVATION**

---

**DATE OF DESCRIPTION** 2008

**DESCRIPTION** Station is located 17.9 km (11.10 mi) southwest of Canyon Junction along the Trout Creek trail (the old Mary Mountain fire road). Bench mark is a spike in the base of a tree at the saddle of a low ridge and along the south edge of the trail.

In 2008 the bench mark was searched for and not found. The bench mark is probably in tree that has fallen, and should therefore be considered destroyed.
