USGS QUAD MAP BEACH LAKE (1986)

NGS PID PY0920

LATITUDE 44.60639

LONGITUDE -110.56944

ELEVATION

DATE OF DESCRIPTION 2008

DESCRIPTION Station is located 21.7 km (13.50 mi) southwest of Canyon Junction along the Trout Creek trail (the old Mary Mountain fire road). Bench mark is a spike in the base of a large dead tree, approximately 40.0 m (131.2 ft) north of the trail and 3.0 m above the trail.

In 2008 the bench mark was searched for and not found. The bench mark is probably in tree that has fallen and should therefore be considered destroyed.
