USGS QUAD MAP OBSIDIAN CLIFF (1986)
NGS PID PY0119

LATITUDE 44.798672101
LONGITUDE -110.744876
ELEVATION 2261 m

DATE OF DESCRIPTION 2002

DESCRIPTION The station is about 6.25 miles north along the Norris Junction-Mammoth Hot Springs highway from Norris Junction, 0.1 mile northwest of a curve with tangents leading north and west, about 400 feet southeast of a curve with tangents leading south and west. There is a pullout on the west side of the road that is signed "Grizzly Lake," which contains an interpretive sign about the 1988 fire. The bench mark is on the east side of the road, on the southwest flank of a hill, and set in the top of a rock outcrop which projects 14 inches above the ground, 38 1/2 feet northeast of the center line of the highway, southeast and across the road from a parking area, and about 8 1/2 feet above the highway.

Looking south from "Grizzly Lake" pullout at interpretive sign, Mammoth-Norris highway, and bench mark (under orange hard hat).

Close-up of bench mark.

Looking north from behind bench mark (beneath orange hard hat) at "Grizzly Lake" pullout and Mammoth-Norris highway.
