USGS QUAD MAP LOWER GEYSER BASIN (1986)

NGS PID PY0763

LATITUDE 44.603056

LONGITUDE -110.838056

ELEVATION 2181 m

DATE OF DESCRIPTION 2008

DESCRIPTION Proceed 6.0 km (3.75 mi) south along the Madison-West Thumb highway from Madison Junction. Bench mark is near the west end of an area of outcropping bedrock, 19.8 m (65.0 ft) east of the north end of a pipe culvert, 13.0 m (42.7 ft) east of the west end of the outcrop, 11.0 m (36.1 ft) north of the centerline of the highway, and 3.7 m above the highway.

In 2008 the bench mark was searched for and not found, presumed destroyed. The location referenced in the description is directly across the highway from a new paved pullout. The bench mark was probably destroyed when rock was removed from the roadcut to construct the pullout.
