

Prepared in cooperation with the
USDA Forest Service and
U.S. Environmental Protection Agency

Integrated Investigations of Environmental Effects of Historical Mining in the Basin and Boulder Mining Districts, Boulder River Watershed, Jefferson County, Montana

Professional Paper 1652

Cover. View from Eva May mine looking across Cataract Creek valley at Hoodoo Creek drainage.
Photograph by D.A. Nimick.

Integrated Investigations of Environmental Effects of Historical Mining in the Basin and Boulder Mining Districts, Boulder River Watershed, Jefferson County, Montana

Edited by David A. Nimick, Stanley E. Church, and Susan E. Finger

Prepared in cooperation with the
USDA Forest Service and
U.S. Environmental Protection Agency

Volume comprises Chapters A, B, C, D1–D10, E1–E3, F, and G,
and an accompanying CD-ROM

Professional Paper 1652

U.S. Department of the Interior
U.S. Geological Survey

Volume Contents

A.	Summary and conclusions from investigation of the effects of historical mining in the Boulder River watershed, Jefferson County, Montana.....	3
	By U.S. Geological Survey	
B.	The Boulder River watershed study, Jefferson County, Montana	13
	By Stanley E. Church, David A. Nimick, Susan E. Finger, and J. Michael O’Neill	
C.	Synthesis of water, sediment, and biological data using hazard quotients to assess ecosystem health.....	29
	By Susan E. Finger, Aïda M. Farag, David A. Nimick, Stanley E. Church, and Tracy C. Sole	
D.	Watershed-Scale Characterization and Investigation of Processes Responsible for Environmental Effects of Historical Mining	
D1.	Geologic framework.....	49
	By J. Michael O’Neill, Karen Lund, Bradley S. Van Gosen, George A. Desborough, Tracy C. Sole, and Ed H. DeWitt	
D2.	Geophysical characterization of geologic features with environmental implications from airborne magnetic and apparent resistivity data	89
	By Anne E. McCafferty, Bradley S. Van Gosen, Bruce D. Smith, and Tracy C. Sole	
D3.	Mine inventory	127
	By E. Paul Martin	
D4.	Metal leaching in mine-waste materials and two schemes for classification of potential environmental effects of mine-waste piles.....	137
	By David L. Fey and George A. Desborough	
D5.	Trace elements in water in streams affected by historical mining	155
	By David A. Nimick and Thomas E. Cleasby	
D6.	Quantification of metal loading by tracer injection and synoptic sampling, 1997–98.....	191
	By Briant A. Kimball, Robert L. Runkel, Thomas E. Cleasby, and David A. Nimick	
D7.	Short-term variation of trace-element concentrations during base flow and rainfall runoff in small basins, August 1999	263
	By John H. Lambing, David A. Nimick, and Thomas E. Cleasby	
D8.	Trace elements and lead isotopes in streambed sediment in streams affected by historical mining.....	279
	By Stanley E. Church, Daniel M. Unruh, David L. Fey, and Tracy C. Sole	
D9.	Hydrogeology of the Boulder River watershed study area and examination of the regional ground-water flow system using interpreted fracture mapping from remote sensing data	337
	By Robert R. McDougal, M.R. Cannon, Bruce D. Smith, and David A. Ruppert	

D10.	Aquatic health and exposure pathways of trace elements.....	369
	By Aïda M. Farag, David A. Nimick, Briant A. Kimball, Stanley E. Church, Don Skaar, William G. Brumbaugh, Christer Hogstrand, and Elizabeth MacConnell	
E.	Case Studies of Mining Sites within the Boulder River Watershed Study Area	
E1.	Understanding trace-element sources and transport to upper Basin Creek in the vicinity of the Buckeye and Enterprise mines.....	401
	By M.R. Cannon, Stanley E. Church, David L. Fey, Robert R. McDougal, Bruce D. Smith, and David A. Nimick	
E2.	Monitoring remediation—Have mine-waste and mill-tailings removal and flood-plain restoration been successful in the High Ore Creek valley?	457
	By Sharon L. Gelinás and Robert Tupling	
E3.	Geologic, geophysical, and seismic characterization of the Luttrell pit as a mine-waste repository.....	475
	By Bruce D. Smith, Robert R. McDougal, and Karen Lund	
F.	Evaluating the success of remediation in the Boulder River watershed	495
	By Susan E. Finger, Stanley E. Church, and David A. Nimick	
G.	Digital databases and CD-ROM for the Boulder River watershed	503
	By Carl L. Rich, David W. Litke, Matthew Granitto, Richard T. Peltier, and Tracy C. Sole
