Studies of the Chesapeake Bay Impact Structure—
The USGS-NASA Langley Corehole, Hampton, Virginia, and Related Coreholes and Geophysical Surveys

Edited by J. Wright Horton, Jr., David S. Powars, and Gregory S. Gohn

Prepared in cooperation with the
Hampton Roads Planning District Commission,
Virginia Department of Environmental Quality, and
National Aeronautics and Space Administration Langley Research Center

This volume is published as chapters A through K.
The chapters are also available separately on the World Wide Web.

Professional Paper 1688

U.S. Department of the Interior
U.S. Geological Survey
Volume Contents

[Letters designate the chapters]

A. Studies of the Chesapeake Bay Impact Structure—Introduction and Discussion
   By J. Wright Horton, Jr., David S. Powars, and Gregory S. Gohn

B. Petrography, Structure, Age, and Thermal History of Granitic Coastal Plain Basement in the Chesapeake Bay Impact Structure, USGS-NASA Langley Core, Hampton, Virginia
   By J. Wright Horton, Jr., John N. Aleinikoff, Michael J. Kunk, Charles W. Naeser, and Nancy D. Naeser

C. Physical Geology of the Impact-Modified and Impact-Generated Sediments in the USGS-NASA Langley Core, Hampton, Virginia
   By Gregory S. Gohn, David S. Powars, T. Scott Bruce, and Jean M. Self-Trail

D. Paleontology of the Impact-Modified and Impact-Generated Sediments in the USGS-NASA Langley Core, Hampton, Virginia
   By Norman O. Frederiksen, Lucy E. Edwards, Jean M. Self-Trail, Laurel M. Bybell, and Thomas M. Cronin

E. Crystalline-Rock Ejecta and Shocked Minerals of the Chesapeake Bay Impact Structure, USGS-NASA Langley Core, Hampton, Virginia, with Supplemental Constraints on the Age of Impact
   By J. Wright Horton, Jr., and Glen A. Izett

F. Stratigraphy and Paleoenvironments of Early Postimpact Deposits at the USGS-NASA Langley Corehole, Chesapeake Bay Impact Crater
   By C. Wylie Poag and Richard D. Norris

G. Physical Stratigraphy of the Upper Eocene to Quaternary Postimpact Section in the USGS-NASA Langley Core, Hampton, Virginia

H. Paleontology of the Upper Eocene to Quaternary Postimpact Section in the USGS-NASA Langley Core, Hampton, Virginia
   By Lucy E. Edwards, John A. Barron, David Bukry, Laurel M. Bybell, Thomas M. Cronin, C. Wylie Poag, Robert E. Weems, and G. Lynn Wingard

I. High-Resolution Seismic-Reflection Image of the Chesapeake Bay Impact Structure, NASA Langley Research Center, Hampton, Virginia
   By Rufus D. Catchings, David S. Powars, Gregory S. Gohn, and Mark R. Goldman

J. Audio-Magnetotelluric (AMT) Soundings across the Margin of the Chesapeake Bay Impact Structure, York-James and Middle Peninsulas, Virginia
   By Herbert A. Pierce

K. Distribution, Origin, and Resource-Management Implications of Ground-Water Salinity along the Western Margin of the Chesapeake Bay Impact Structure in Eastern Virginia
   By E. Randolph McFarland and T. Scott Bruce

Temperature in degrees Celsius (°C) may be converted to degrees Fahrenheit (°F) as follows:

\[ °F = (1.8 \times °C) + 32 \]

Vertical coordinate information is referenced to the North American Vertical Datum of 1988 (NAVD 88).

Horizontal coordinate information is referenced to the North American Datum of 1983 (NAD 83).
