

***Atriplex hymenelytra* (Torrey) S. Wats.**

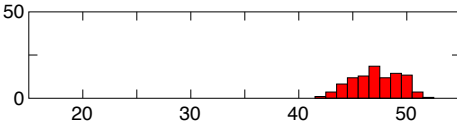

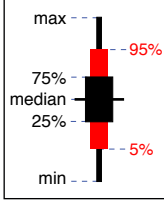

Accepted name: *Atriplex hymenelytra* (Torr.) S. Watson

Common name: desert holly

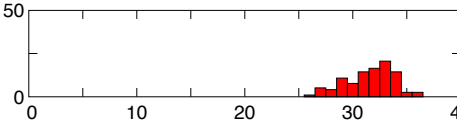

Number of grid points: 194

Primary source(s):

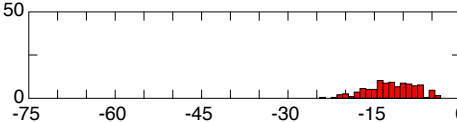

Benson and Darrow (1981)

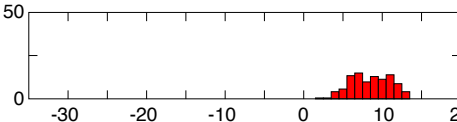

Maximum Temperature (°C)

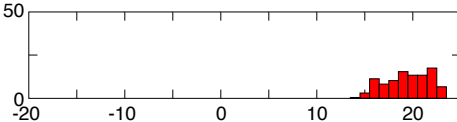

Temperature of Warmest Month

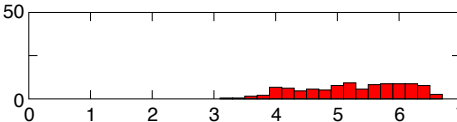

Minimum Temperature (°C)

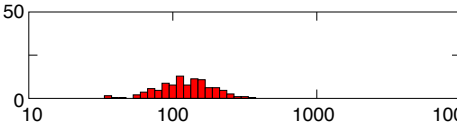

Temperature of Coldest Month

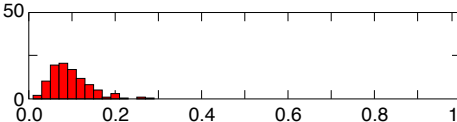

Annual Temperature (°C)

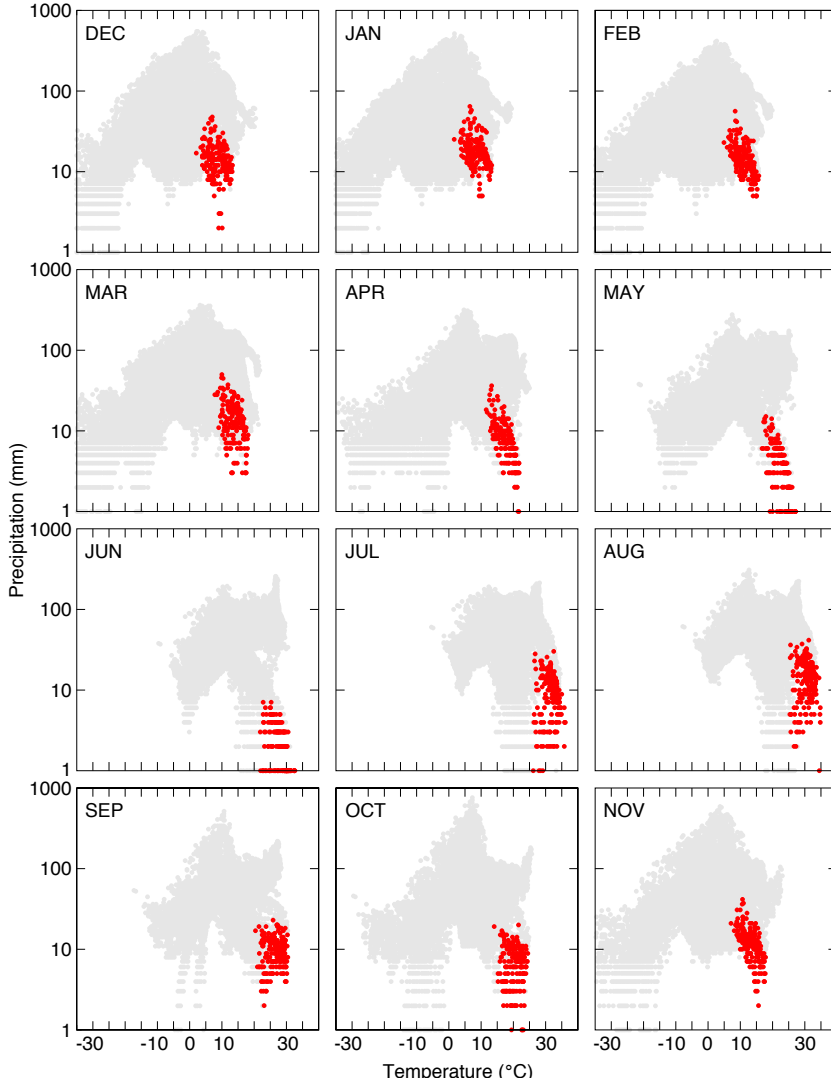

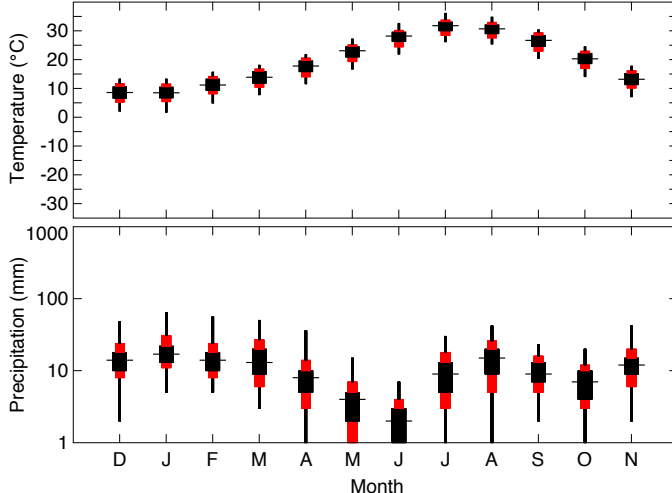

Growing Degree Days on 5°C Base X 10

Annual Precipitation (mm)

Actual Evaporation/Potential Evaporative

Distribution data for
Canada and United States only
