

***Pinus albicaulis* n = 582**

***Pinus banksiana* n = 4670**

***Pinus edulis* n = 364**

***Pinus clausa* n = 87**

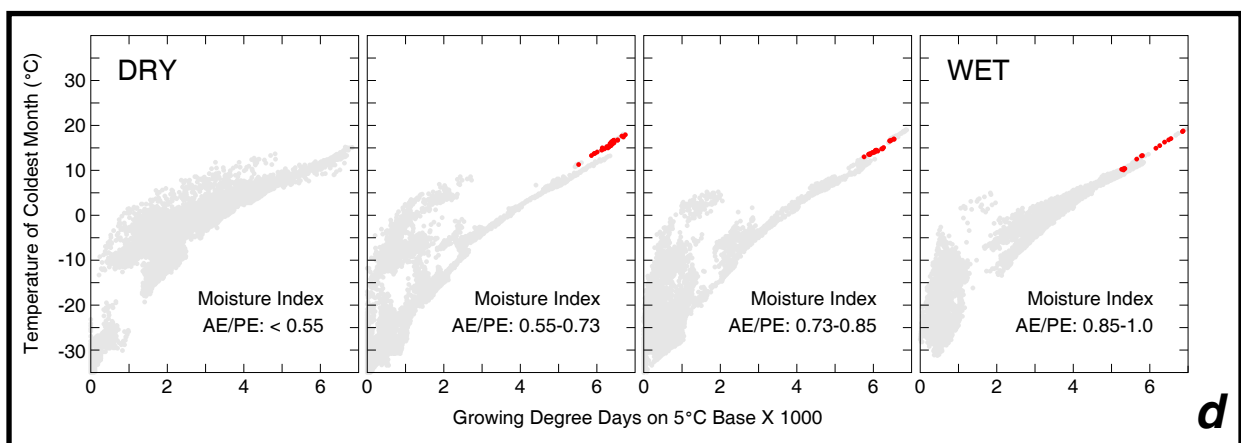

Figure 18. Comparison of plots of the presence or absence for the taxon relative to four quartiles of AE/PE (mean actual evaporation divided by potential evaporation; driest on the left, wettest on the right) and within each quartile by MTCO (mean temperature of the coldest month) versus GDD5 (mean growing-degree days [on a 5°C base]) for four species of *Pinus* (box d on fig. 12). °C, degrees Celsius.
