

Descriptions of nomenclature used on map are listed at <http://dx.doi.org/10.1029/2008JG001201>.
Elevations are based on topography derived from the Mars Orbiter Laser Altimeter (MOLA) experiment data set. High-resolution topography is derived from the Mars Reconnaissance Orbiter's High Resolution Imaging Science Experiment (HiRISE) camera data set. Data were resampled to 10 m resolution using MOLA and HiRISE data. For more information on the MOLA data, see Smith and others, 2001.

Eastern Candor Sulci

Western Ceti Mensa

SCALE 1:10,000
TRANSVERSE MERCATOR PROJECTION
1000 500 0 500 1000 METERS
PLANETOCENTRIC LATITUDE

QUADRANGLE LOCATION
Photomosaic showing location of map area (red). An outline of 15,000,000-scale quadrangle is provided for reference.

Southeastern Ceti Mensa

Bedrock and Structural Geologic Maps of Eastern Candor Sulci, Western Ceti Mensa, and Southeastern Ceti Mensa, Candor Chasma, Valles Marineris Region of Mars

By
Chris H. Okubo and Tienielle A. Gaither
