Examination

Cross Sections

1. Cross-section lines are shown.
2. Cross-section lines are shown.
3. Cross-section lines are shown.
4. Cross-section lines are shown.
5. Cross-section lines are shown.

Geologic Logs

1. Data from logs.
2. Data from logs.
3. Data from logs.
4. Data from logs.
5. Data from logs.

Explanation

1. Contours of cross sections are shown.
2. Contours of cross sections are shown.
3. Contours of cross sections are shown.
4. Contours of cross sections are shown.
5. Contours of cross sections are shown.

Note: The figures are representations of seismic cross sections for a field site. The data and information provided are for descriptive purposes only and do not imply endorsement by the U.S. Government.
