Appendix A. Plots Showing Relations of Reservoir Storage, Surface Water Elevation, and Time, Camp Far West Reservoir, California.

Figure A1. Plot showing relation of reservoir storage to surface water elevation. Information provided by the South Sutter Water District.

Figure A2. Time-series plot showing storage during the period July 1, 2000 through September 30, 2003. Data provided by the South Sutter Water District. Long-term average monthly storage data from the California Department of Water Resources, California Data Exchange Center.
Figure A3. Time-series plot showing surface-water elevation during the period July 1, 2000 through September 30, 2003. Long-term average monthly elevation data computed from the elevation-storage relation in figure A1 using data from the California Department of Water Resources, California Data Exchange Center.
