SOUTHWEST
NORTHEAST
EXPLANATION
Proposed gas hydrate stability zone
Presence of gas hydrate on well log
Gamma ray well log
Resistivity well log
Well log correlation pick—Dashed where uncertain
Unconformity—Dashed where uncertain
0 °C measured from temperature survey
Base of ice-bearing permafrost (IBPF)—Dashed where uncertain
Top or base of projected hydrate stability zone calculated (HSZ (calc))
—Dashed where uncertain
Top or base of projected hydrate stability zone (HSZ (proj))—Dashed where uncertain
Ice table / Ice exploration
Producing oil well
Abandoned oil well
Suspended oil well
Water injection well
Abandoned well
Abandoned injection well
WELL HEADER
Map identification number—See figure 11
Well operator
Well identification name
American Petroleum Institute number
Reference elevation
Elev. metric
Measured depth
True vertical depth sub sea
Base Ice
