

 Projected hydrate stability zone
 Gamma ray well log
 Resistivity well log
 Well log correlation pick—Dashed where uncertain
 Unconformity—Dashed where uncertain
 Base of ice-bearing permafrost (IBPF)—Dashed where uncertain
 Top or base of projected hydrate stability zone (HSZ (proj))—Dashed

- ✱ See table 1 for explanation
- ✱ Abandoned oil well
- ✱ Gas injection well

MAP ID: 114 — **Map identification number**—See figure 11
AMOCO — **Well operator**
O NAME ISLAND 1 — **Official well name**
PI: 50029204690000 — **American Petroleum Institute number**
ENCE ELEVATION = 25 ft — **Reference elevation**

HM-M	Ohm-meter
MD	Measured depth
VDSS	True veritcal depth sub sea

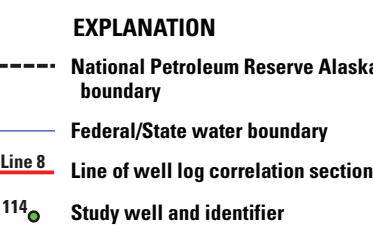

Figure 9. Well log correlation section line 8 showing well log markers (C-horizons), gas hydrate picks, gas hydrate stability zone, base of ice-bearing permafrost picks, and 0 °C markers for wells with map identification numbers 108 through 114. Line of section shown in figure 11.
