

- EXPLANATION**
- Limestone
 - Sandstone
 - Shale
 - Silty shale
 - PD-0010 Gas well and number
 - PD-0010 Dry well and number
 - GR Gamma-ray intensity in American Petroleum Institute (API) units
 - MD Measured depth (MD), in feet—Datum is top of Millboro Shale
 - RHOB Bulk density (RHOB), in grams per cubic centimeter

Wireline Well Logs Through Middle Devonian Shales in Highland and Rockingham Counties, Virginia, and Pendleton and Hardy Counties, West Virginia

This map was printed on an electronic plotter directly from digital files. Dimensional calibration may vary between electronic plots and between X and Y directions on the same plotter, and paper may change size due to atmospheric conditions; therefore, scale and proportions may not be true on plots of this map.
