

## Appendix 2. Profiles of the 10-, 2-, 1-, and 0.2-Percent Annual Exceedance Probability Floods for the Ottauquechee River, Vermont

### Figures

2-1. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections A through I for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-2
2-2. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections J through O for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-3
2-3. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections P through U for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-4
2-4. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections V through AA for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-5
2-5. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections AB through AF for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-6
2-6. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections AG through AM for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-7
2-7. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections AN through AR for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-8
2-8. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections AS through AZ for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-9
2-9. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections BA through BE for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-10
2-10. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections BF through BJ for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-11
2-11. Profiles of the 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections BK and BL for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont.....	2-12

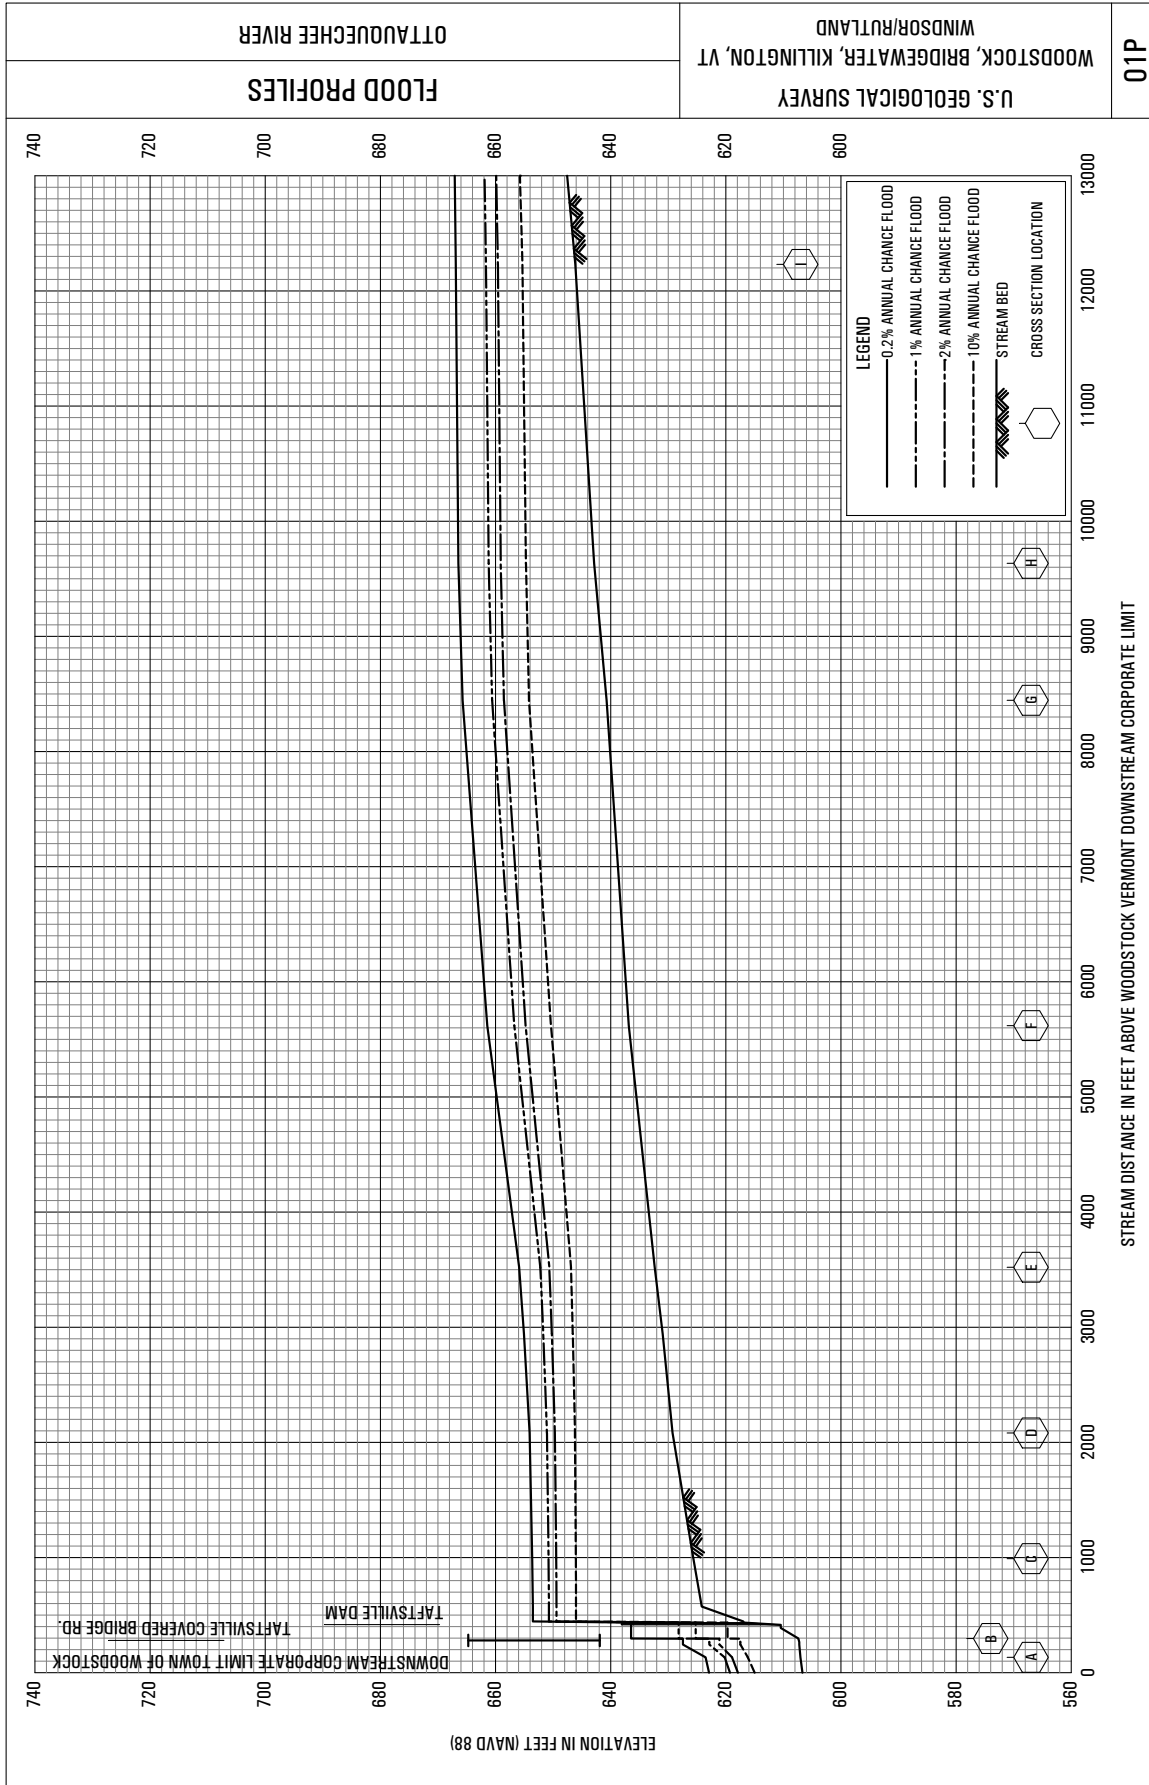

Figure 2-1. The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections A through I for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

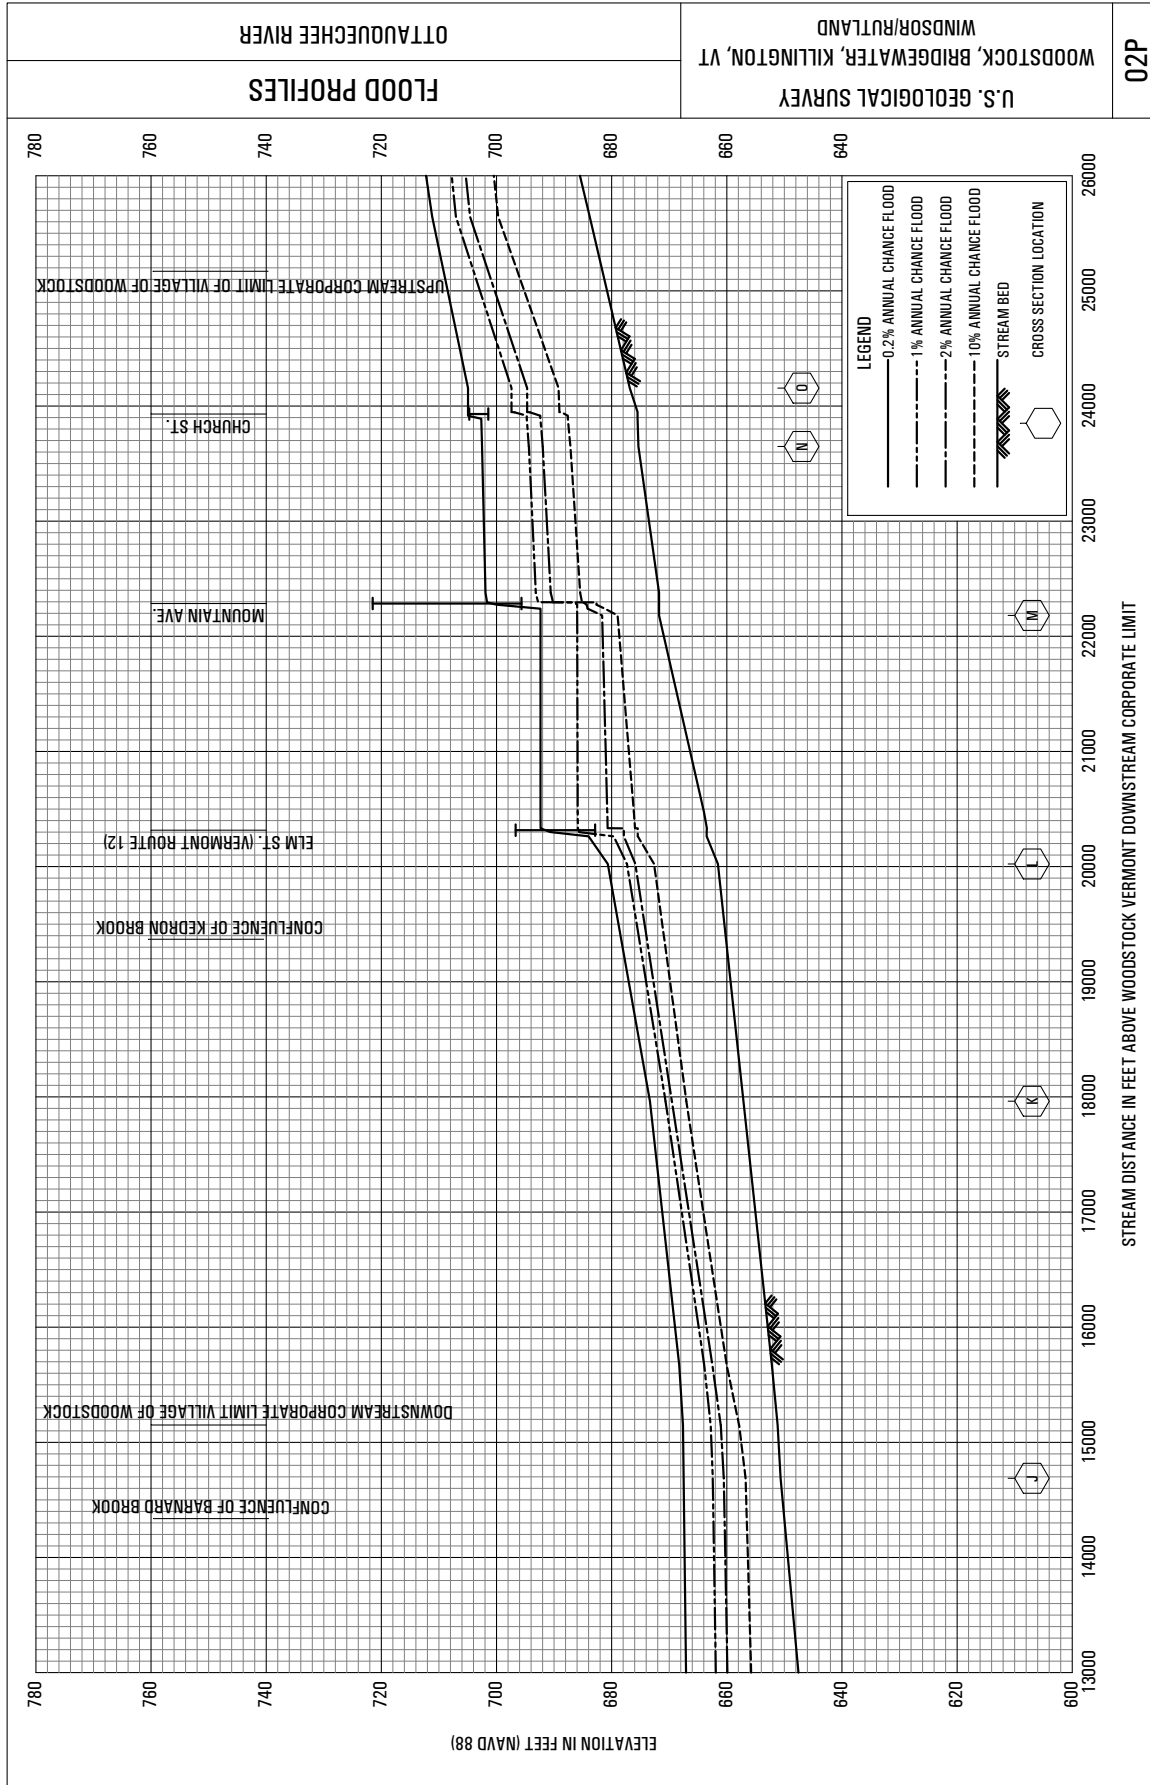

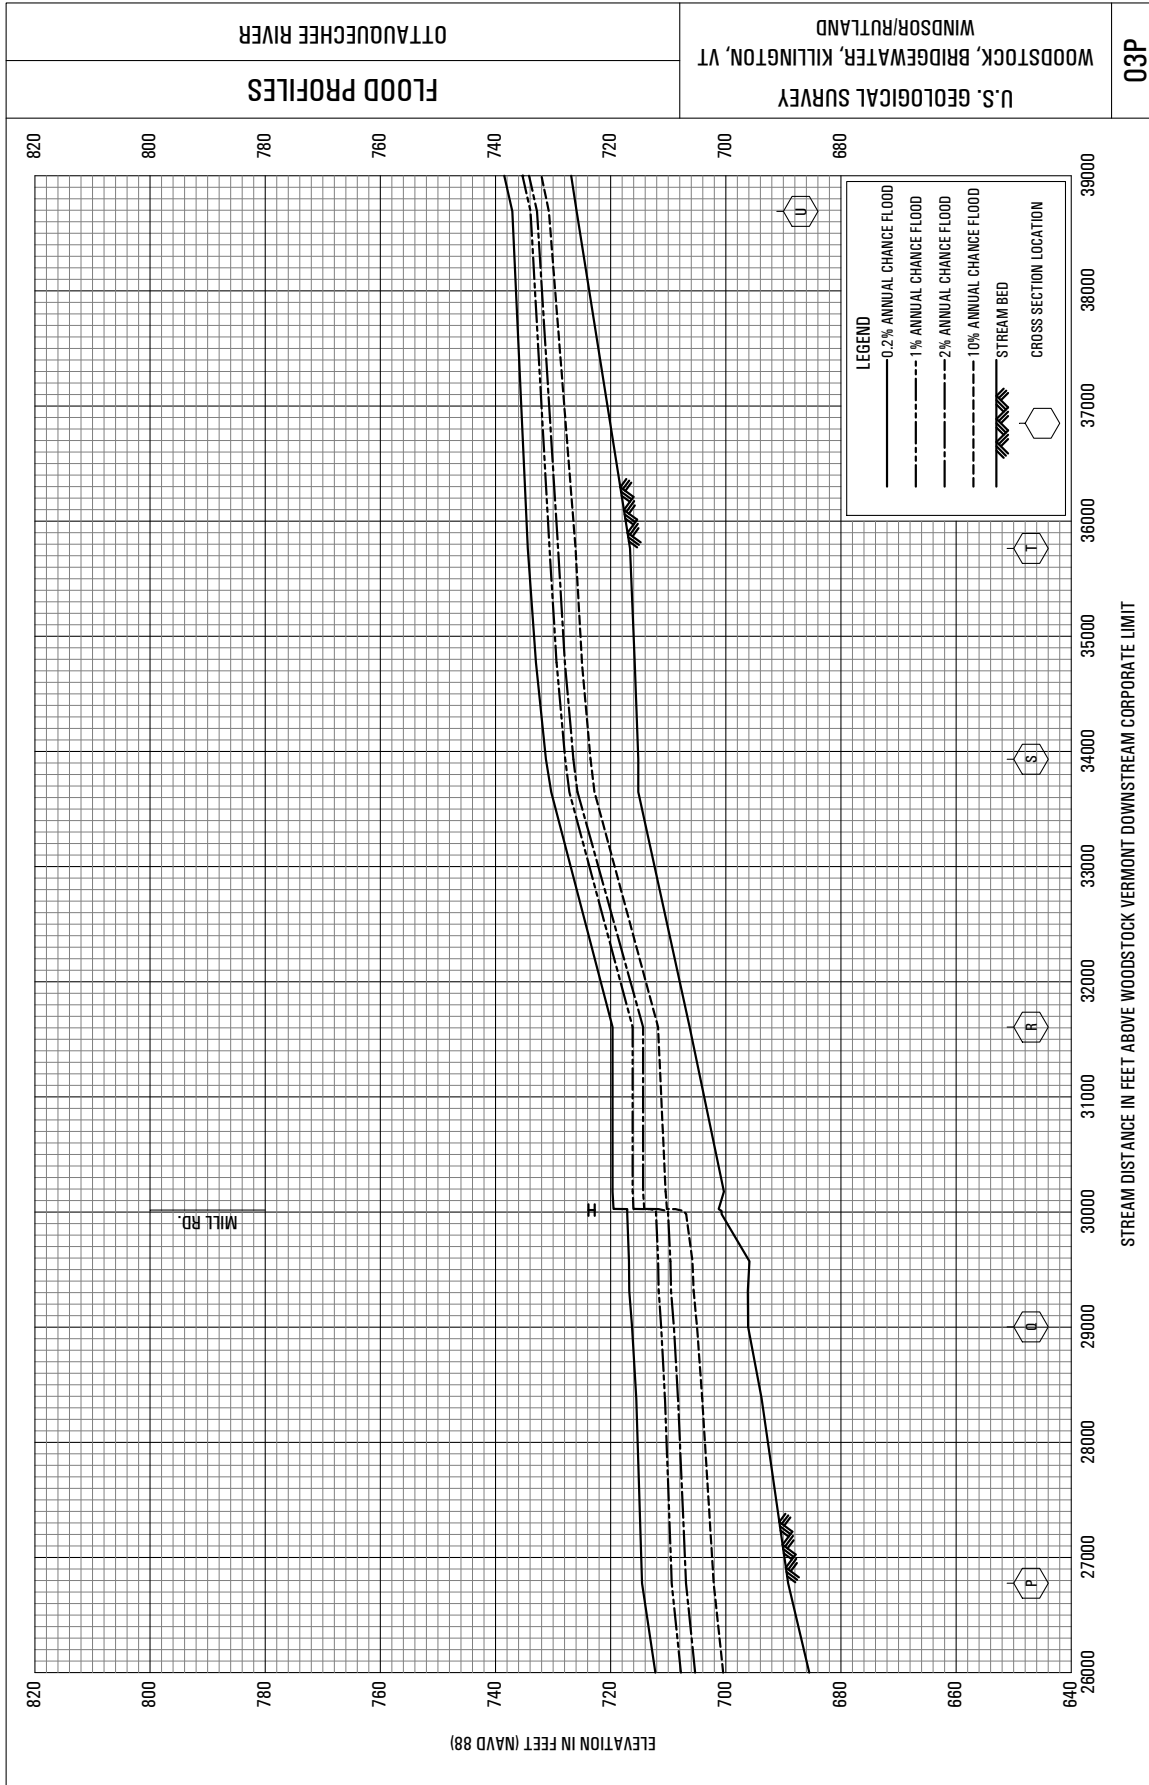

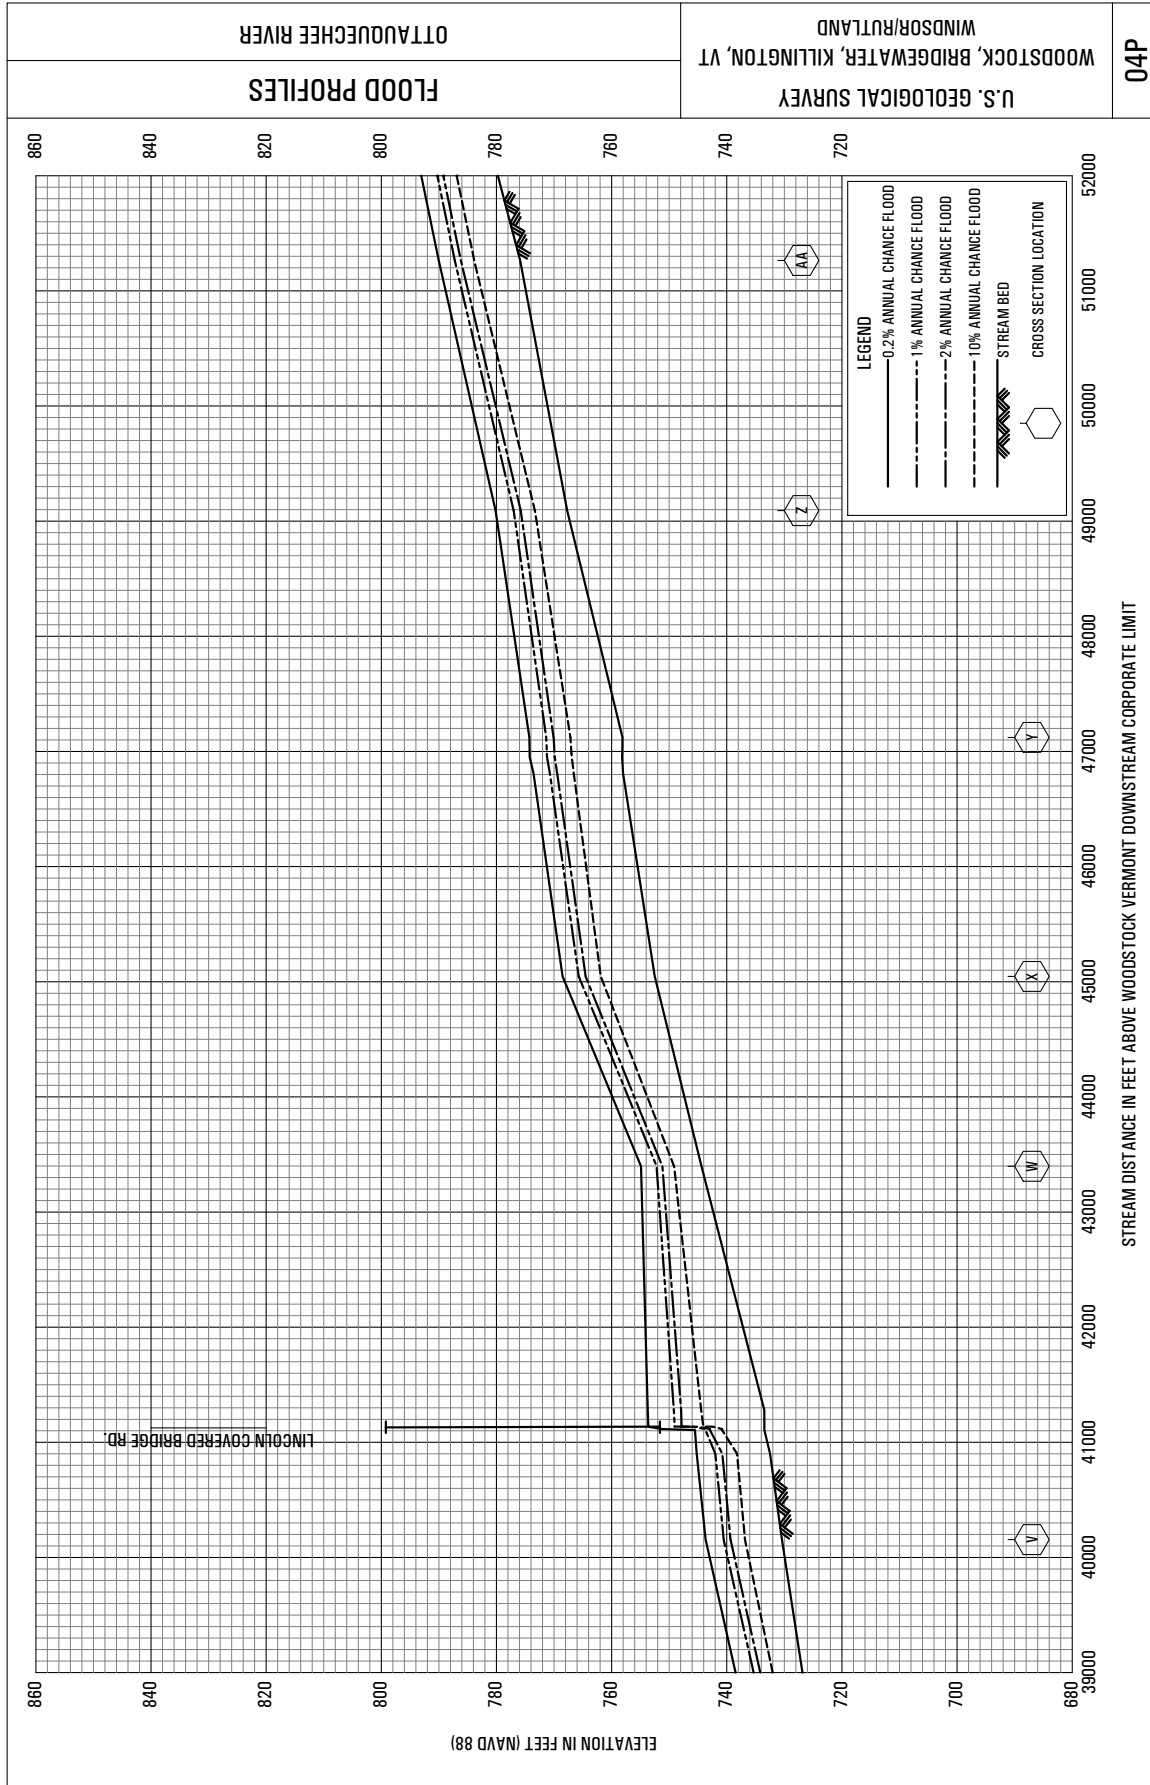

Figure 2-2. The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections J through O for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

**Figure 2-3.** The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections P through U for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

**Figure 2-4.** The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections V through AA for the Ottawaquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

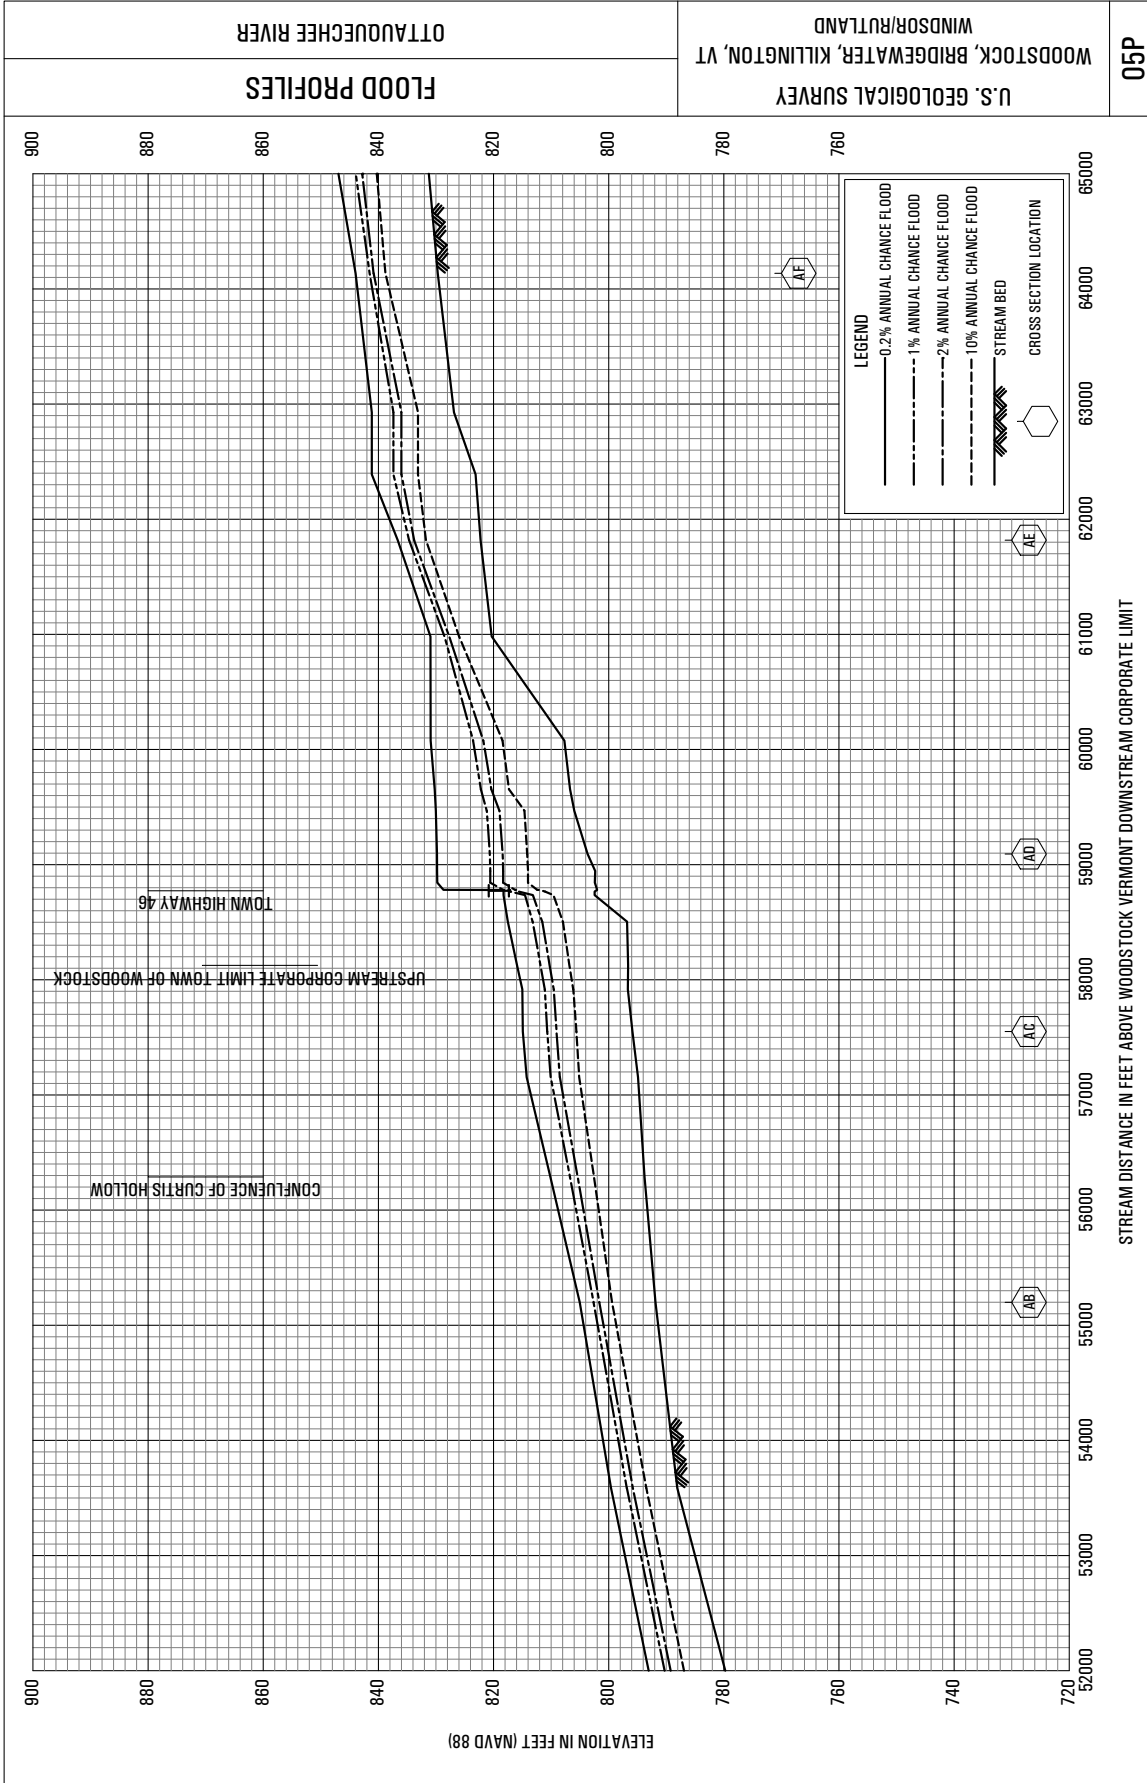

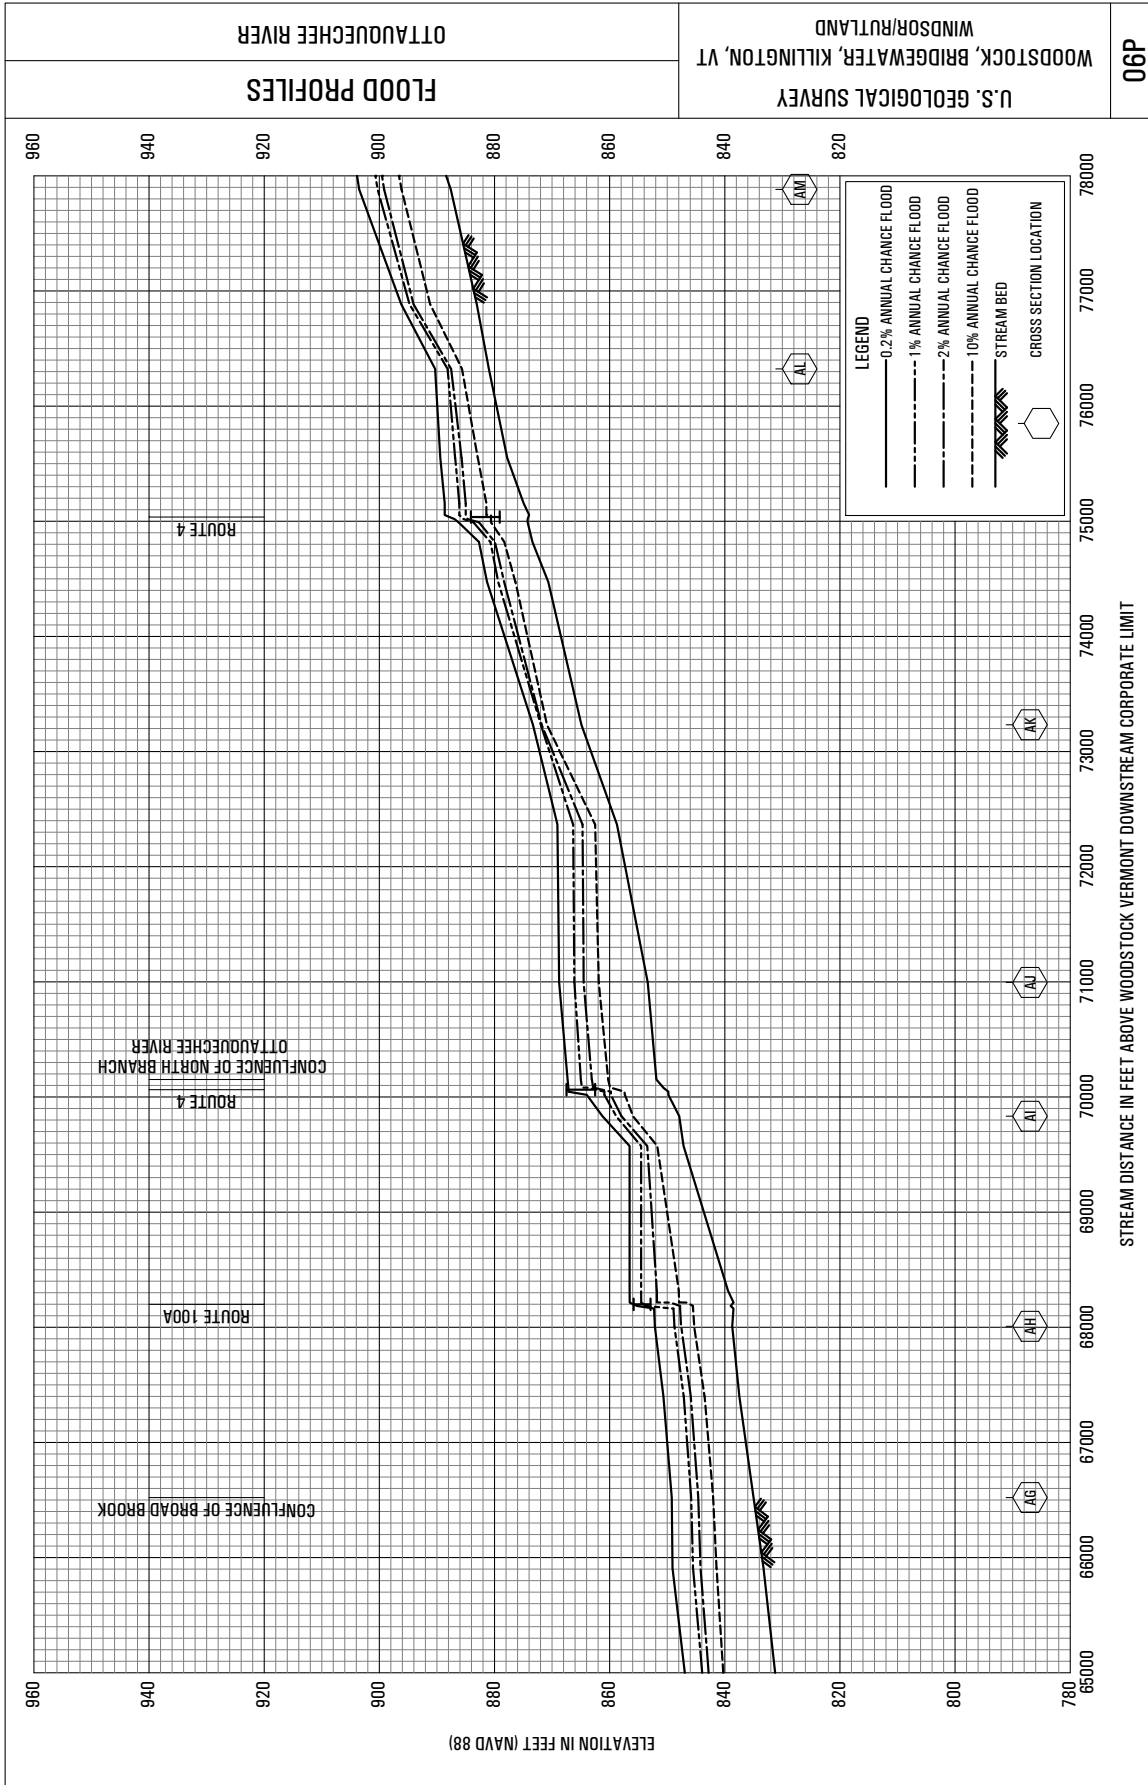

Figure 2-5. The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections AB through AF for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

**Figure 2-6.** The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections AG through AM for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

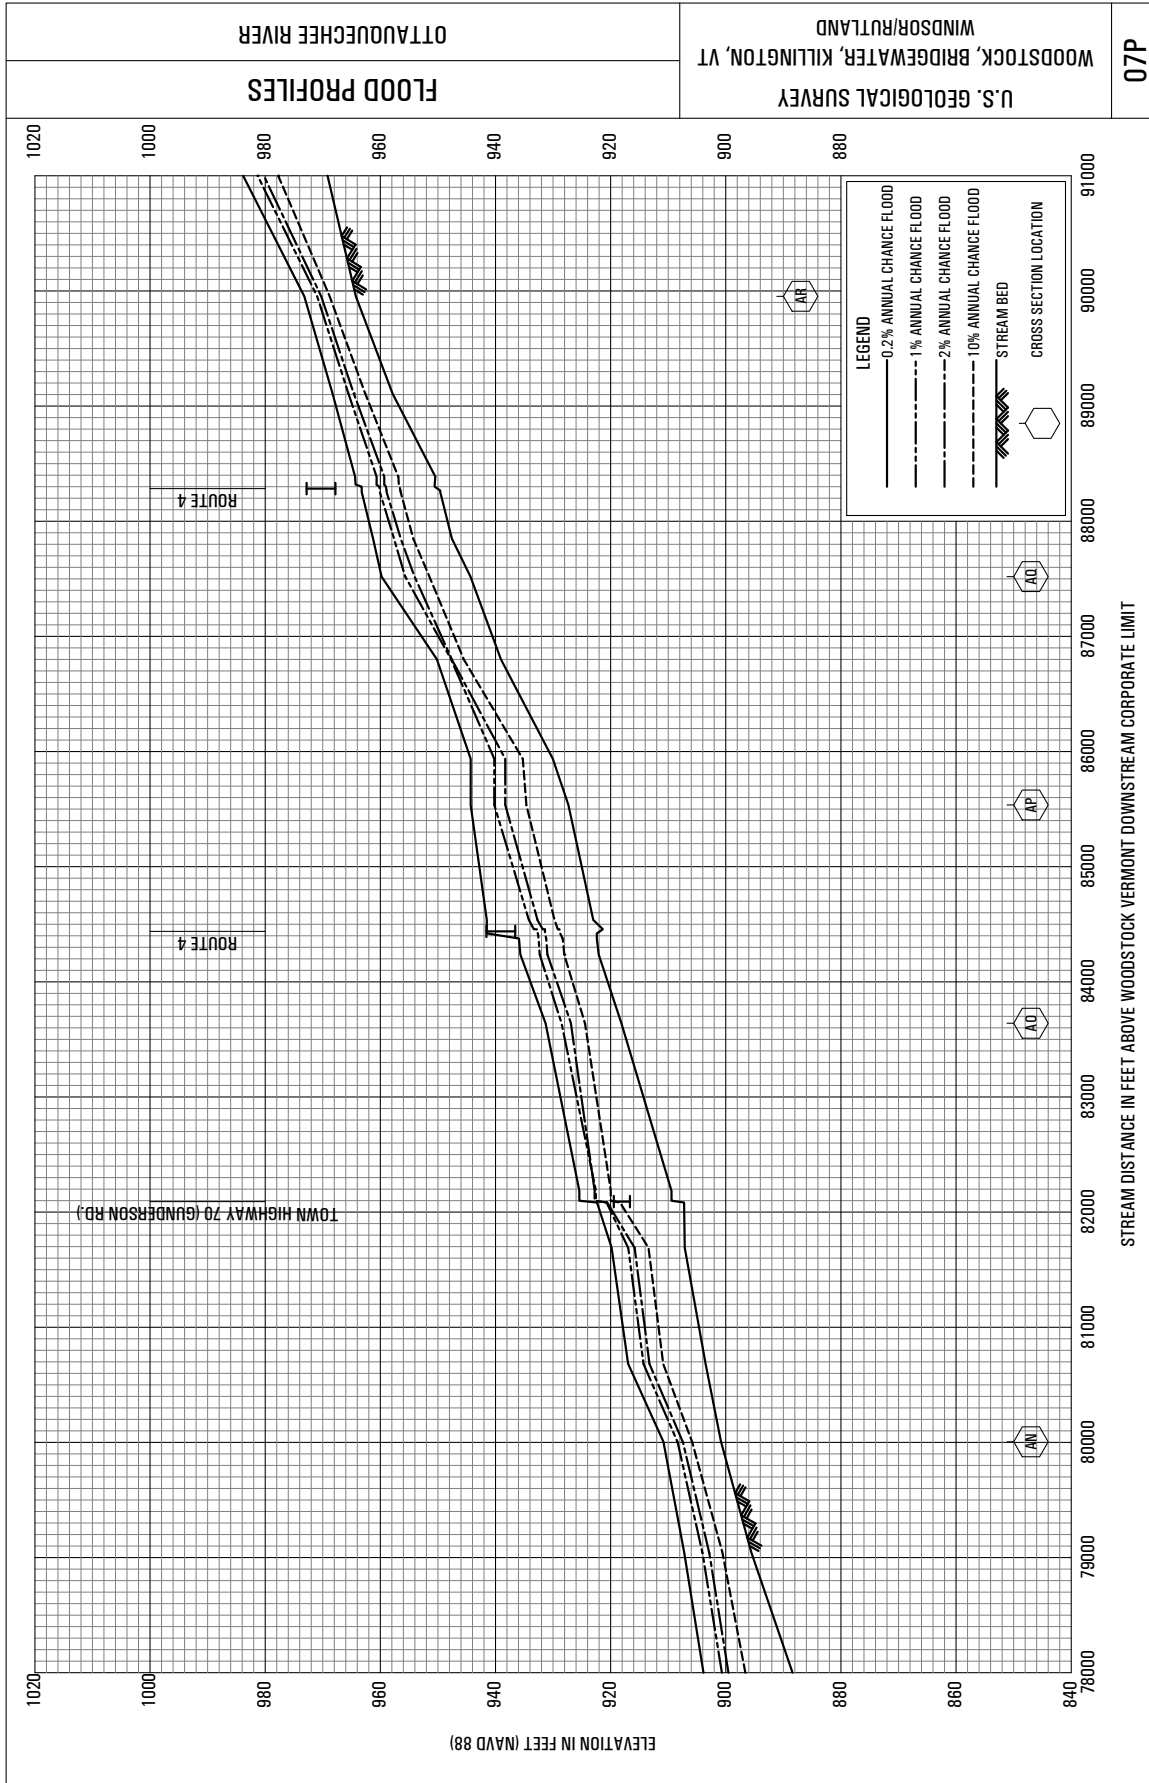

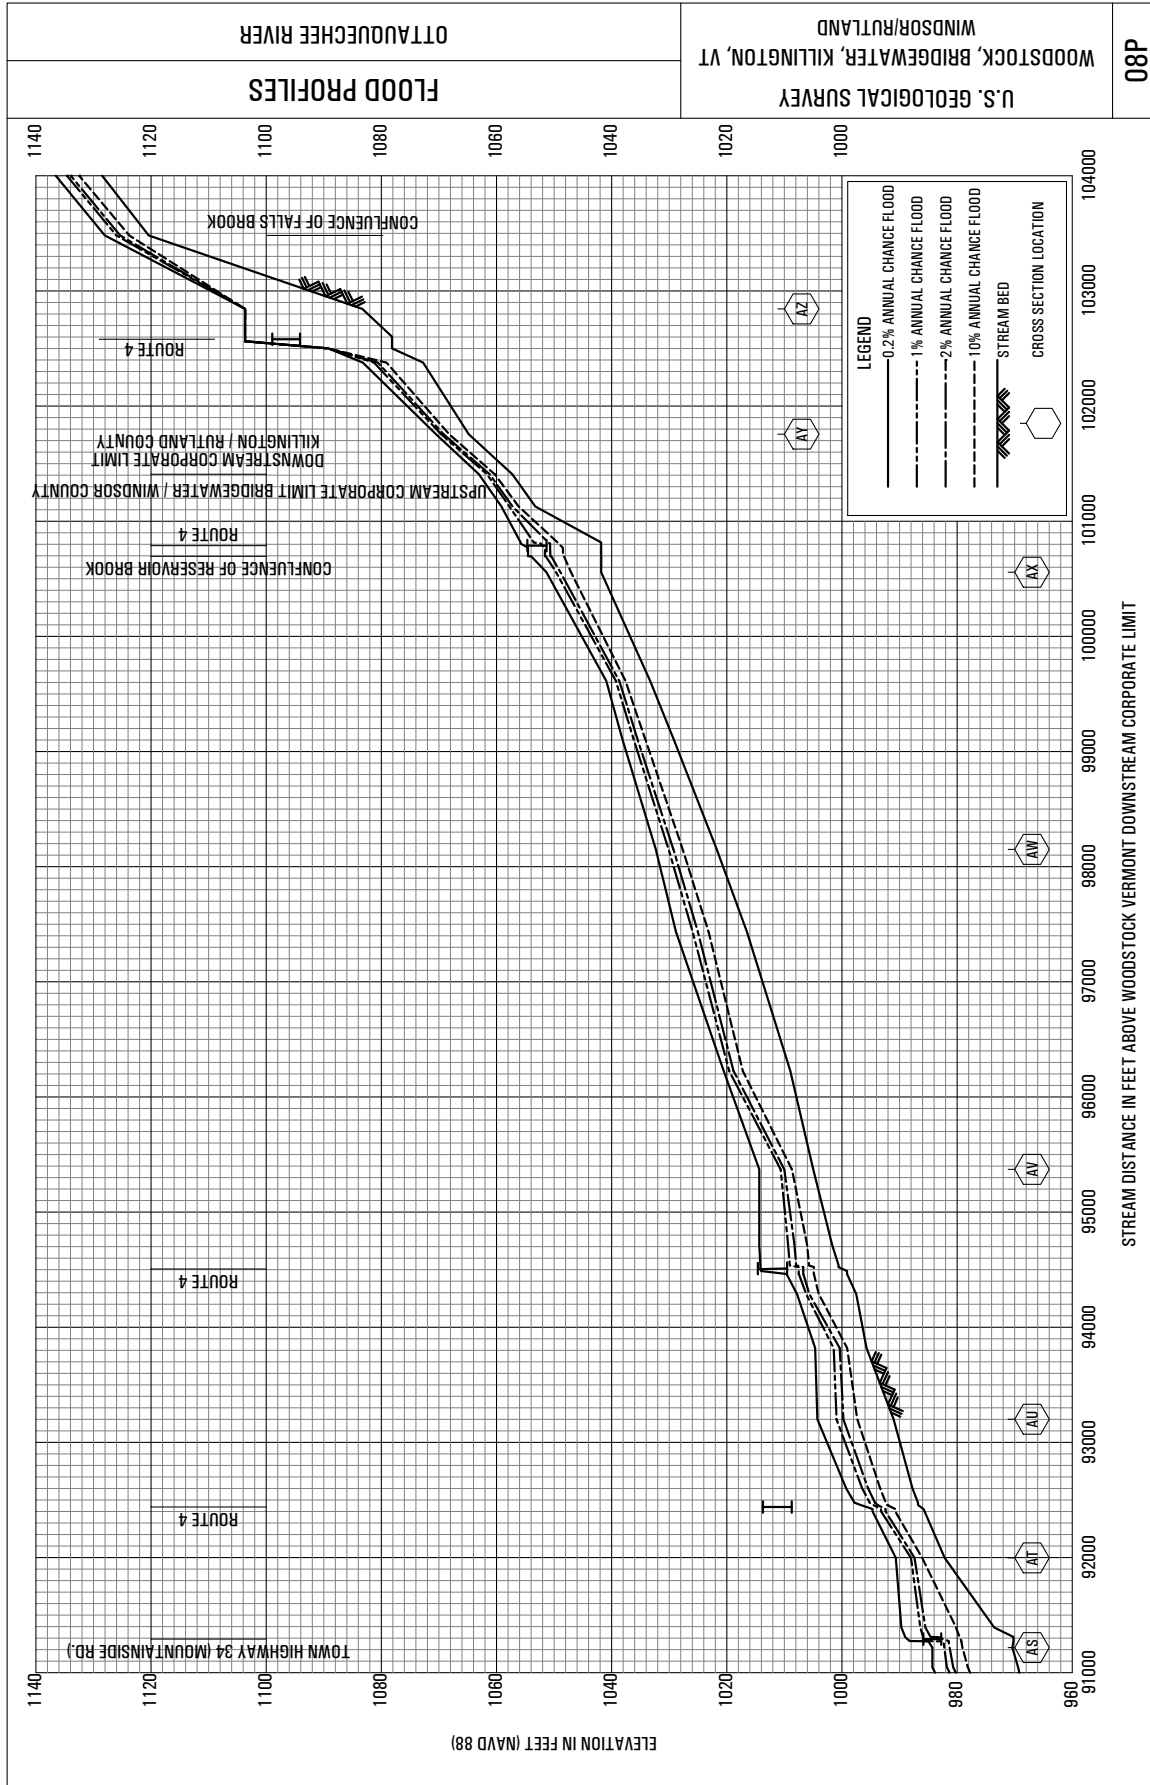

Figure 2-7. The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections AN through AR for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

**Figure 2-8.** The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections AS through AZ for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

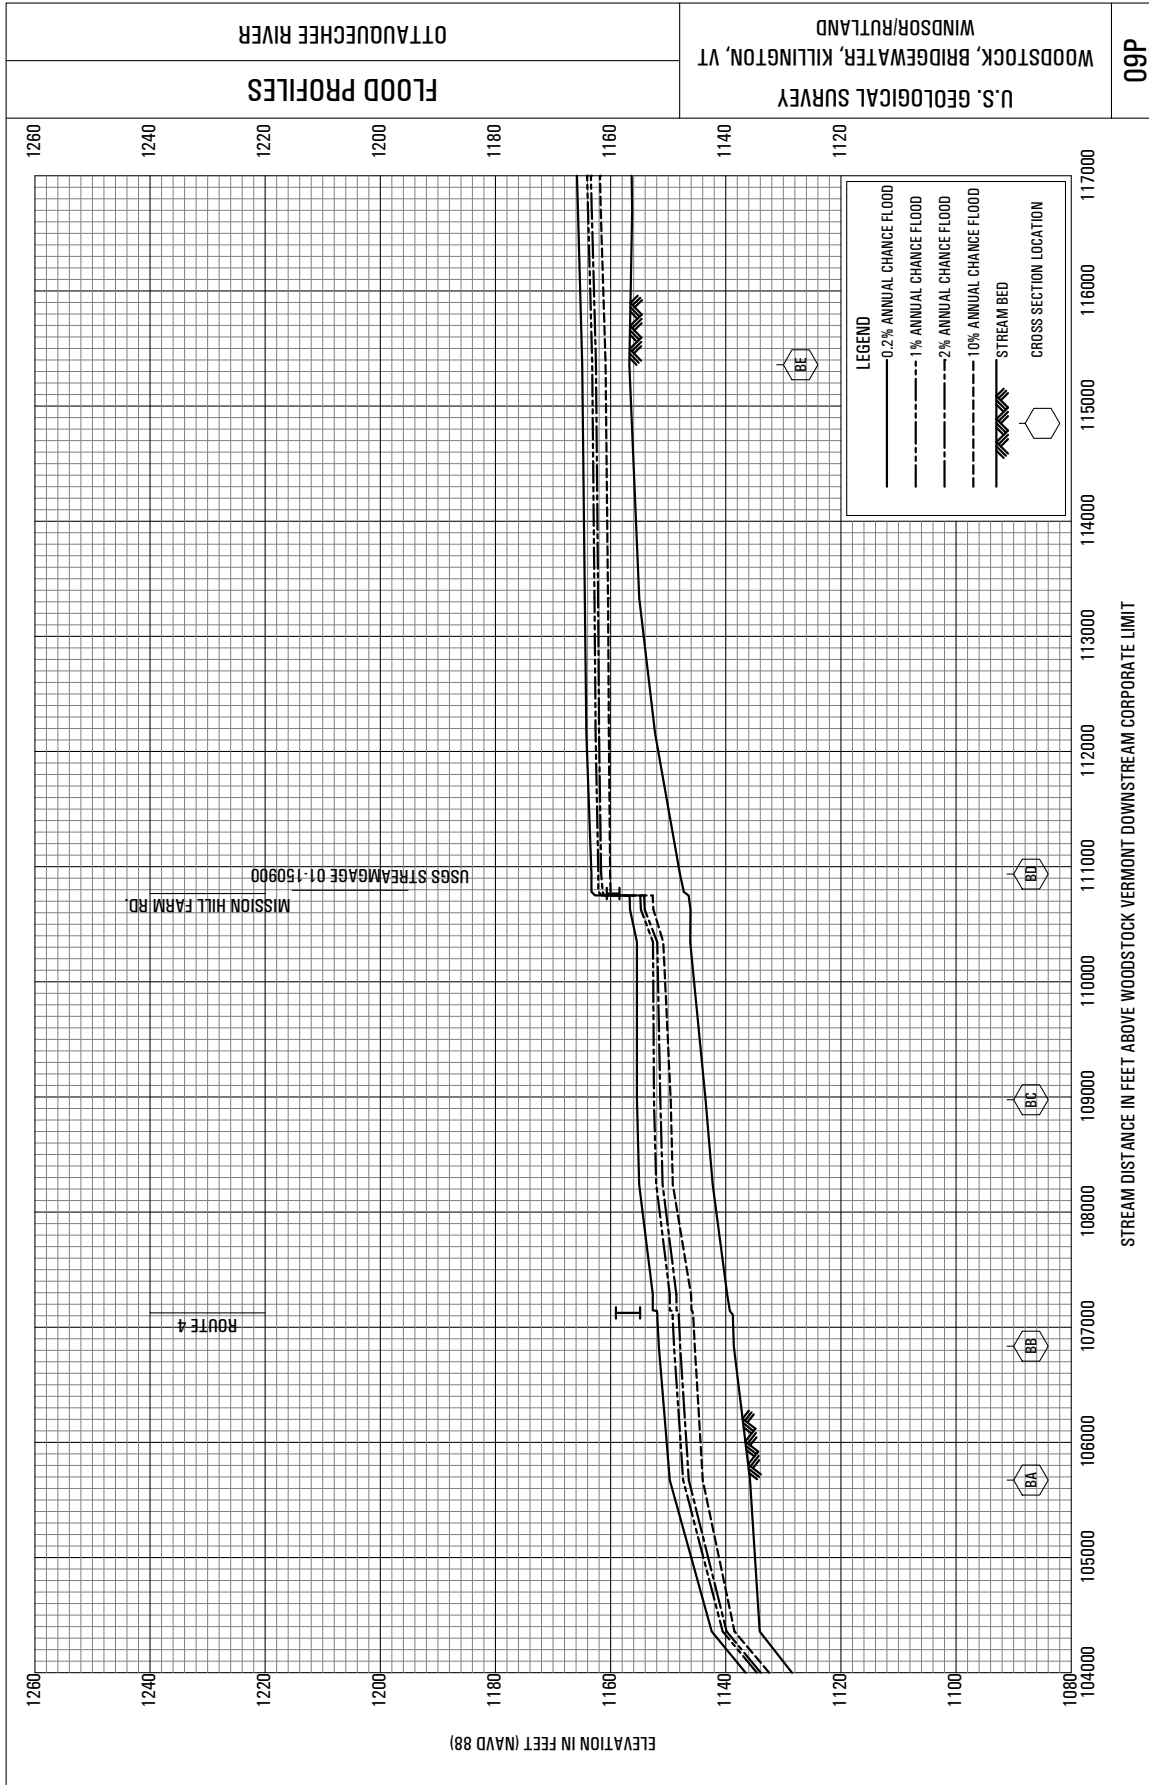

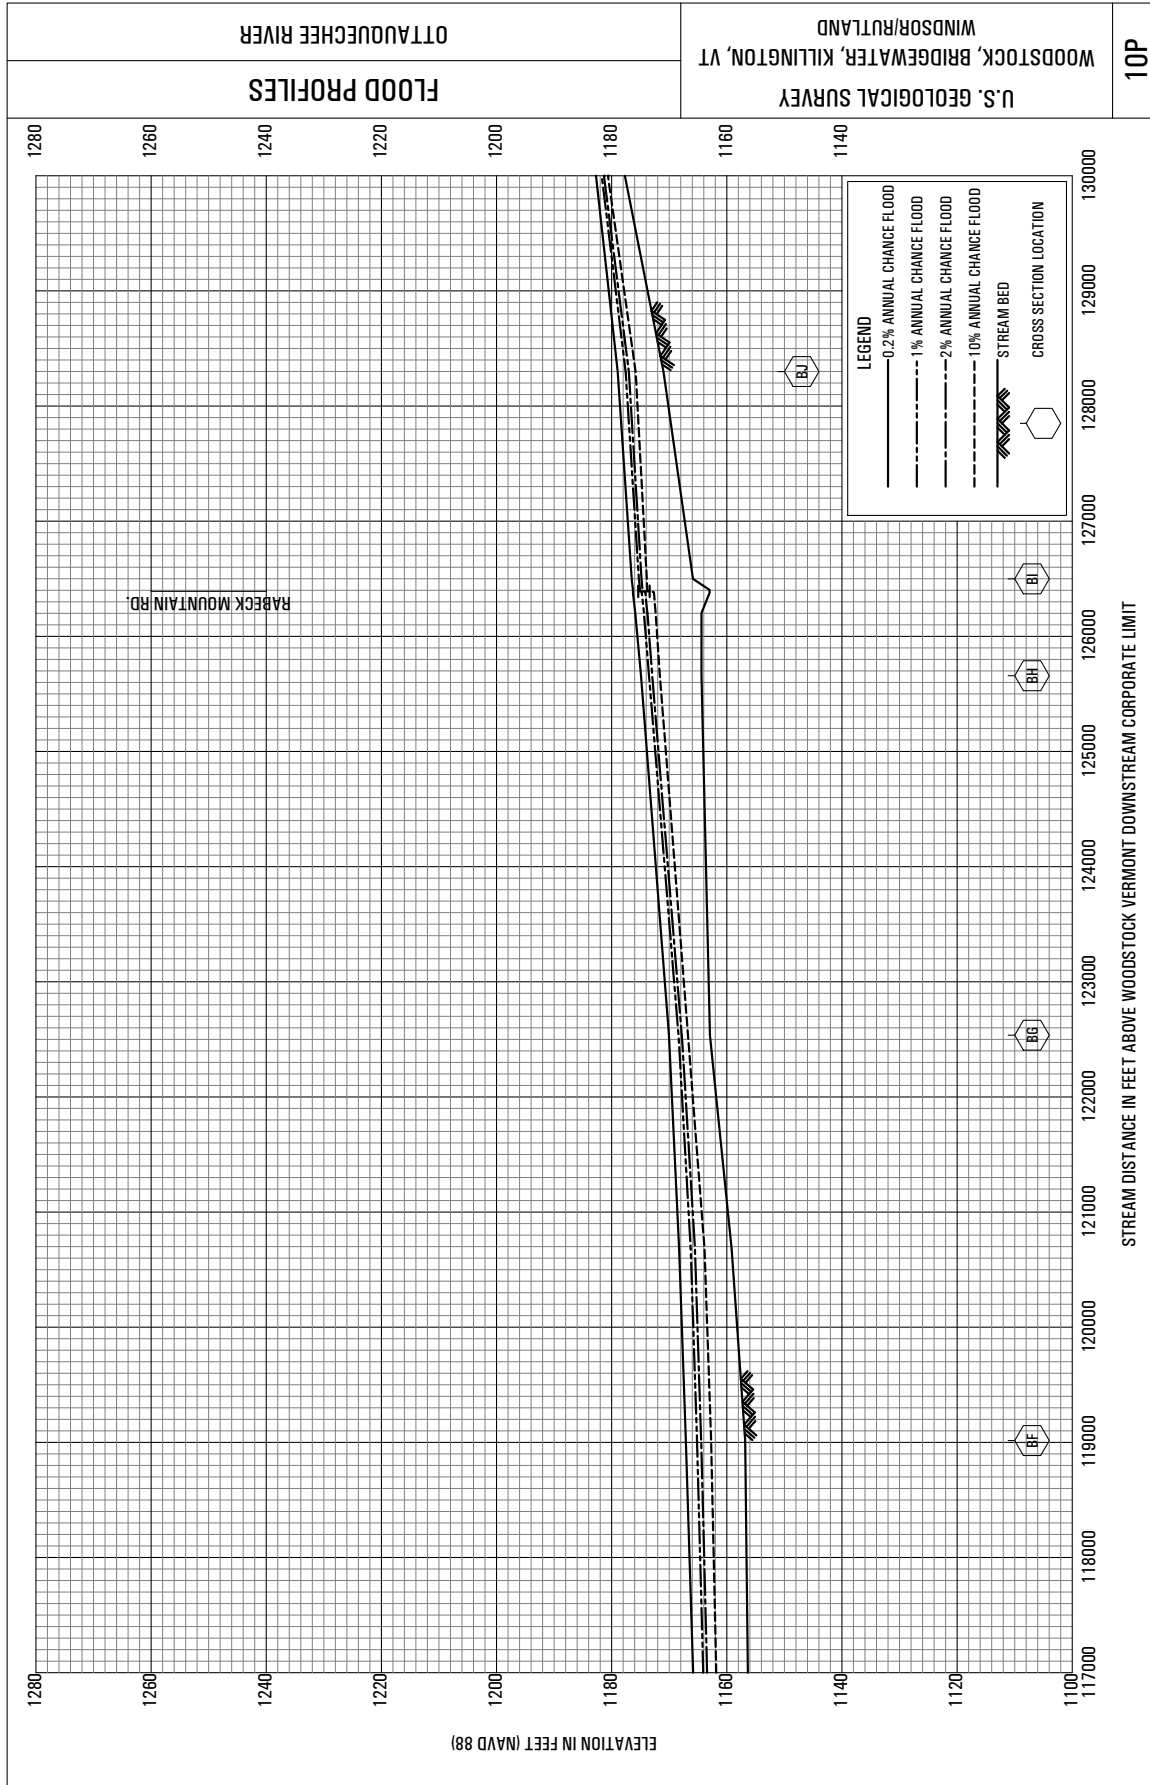

Figure 2-9. The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections BA through BE for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

**Figure 2-10.** The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections BF through BJ for the Ottawaquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.

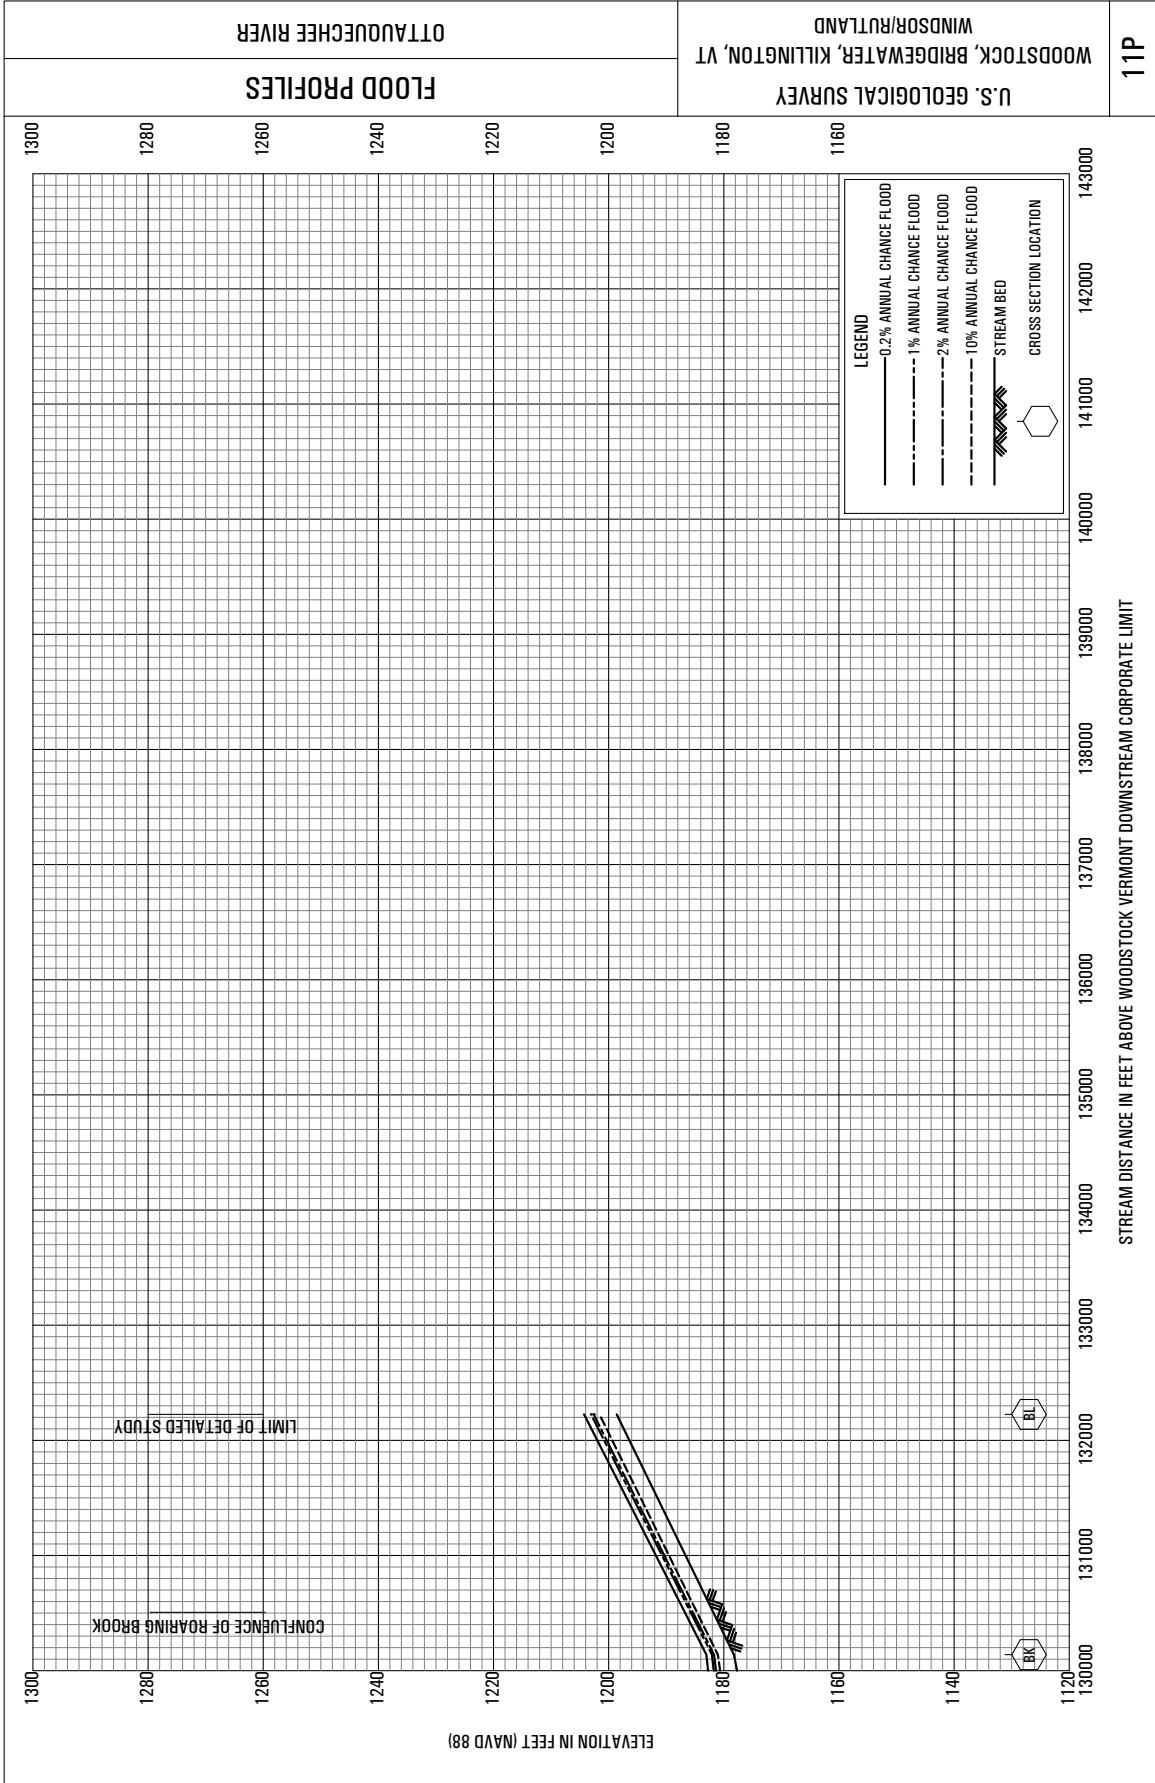

Figure 2-11. The 10-, 2-, 1-, and 0.2-percent annual exceedance probability floods for cross sections BK and BL for the Ottauquechee River, in Woodstock, Bridgewater, and Killington, Vermont. NAVD 88, North American Vertical Datum of 1988; %, percent.
