Boundary data from San Juan and others (2016).
USA Contiguous Albers Equal Area Conic Projection.
Central meridian, 110° W., latitude of origin, 37.5° N.
North American Datum of 1983.

0 2 4 6 8 10 MILES
0 2 4 6 8 10 KILOMETERS

USMIN gold locations from Fernet and others (2016).
Fault data from Sutherland and Hausel (2006).

EXPLANATION

Assessment tract types – orogenic gold vein

- High-potential (H) tract with high (D) or low (B) certainty
- Moderate-potential (M) tract with unknown (A) certainty

Base data

- USGS study area boundary
- Proposed withdrawal areas
- County boundaries
