Mr. Robert D. Nininger, Assistant Director
Division of Raw Materials
U. S. Atomic Energy Commission
Washington 25, D. C.

Dear Bob:

Transmitted herewith are two copies of TEM-523-A, "Photogeologic map, Orange Cliffs-11 quadrangle, Garfield and Wayne Counties, Utah," by R. G. Ray. This map of part of the Colorado Plateau area is one of the series of 7½-minute photogeologic quadrangle maps that are being prepared and supersedes TEM-523 which was transmitted in February 1953.

We are asking Mr. Hosted to approve our plan to publish this map in the Miscellaneous Geologic Investigations series.

Sincerely yours,

John H. Eric
