

1-14. Calculations

Line-point-intercept (<i>Attach corresponding data sheet</i>)				
Transect #	% Bare cover		% Total foliar cover	
1				
2				
3				
Gap intercept (<i>Attach corresponding data sheet</i>)				
Transect #	% 25-50 cm	% 51-100 cm	% 101-200 cm	% >200 cm
1				
2				
3				
Soil stability (use soil stability kit) (<i>Attach corresponding data sheet</i>)				
All Samples Average	Protected Surface Average		Unprotected Surface Average	
Soil texture (indicate if texture by feel method or hydrometer method)				
Soil bulk density (indicate if core or excavation method) (2 samples/transect)				
Transect 1				
Transect 2				
Transect 3
