

- EXPLANATION**
- Depth to water, in feet below land surface
    - 0 - 6
    - 6 - 12
    - > 12
  - Approximate limit of saturated valley-fill deposits
  - Observation well
    - 7500
    - 7510
  - Water-table contours
    - Shows altitude of water table
    - Contour interval 20 feet. Supplemental 10 foot contours shown by dashed lines.
    - Datum is mean sea level.
  - Flow line
    - Shows direction of ground-water movement
  - Ground-water divide
    - Shows approximate location as of January, 1968
  - Stream-gaging station
  - Stream-measurement site

Base from U.S. Forest Service.  
Costilla County base modified from  
Colorado State Highway Department

Figure 4. Configuration of water table and depth to water, January 1968.
