Miscellaneous Publications no. 5
[Supplement]

Correlation List

of

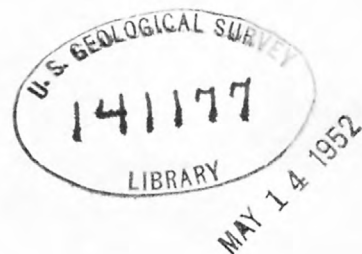

New and Old Numbers

of

The Descriptive Catalogue of the Photographs
of the U. S. Geological Survey of the Terri-
tories for the years 1869 to 1875, Miscellane-
ous Publication No. 5, Department of the
Interior, U. S. Geological Survey of the Terri-
tories. 1875

Photographic Library
U. S. Geological Survey
March 1951

The numbers of the negatives listed in the Descriptive Catalogue of the Photographs of the U. S. Geological Survey of the Territories for the years 1869 to 1875, Miscellaneous Publication No. 5, Department of the Interior, U. S. Geological Survey of the Territories, 1875, were replaced many years ago with new numbers. The following list of new numbers correlating the old numbers has been prepared to serve as a key to the 1875 catalog.

Each assigned new number represents a negative or a print in our collection and the sequence of new numbers follows the order of prints mounted in five albums in the photographic library of the U. S. Geological Survey. Blank spaces in the list indicate unknown old catalog numbers and dates.

The glass negatives and the 5 original albums are stored in the Nat. H.S.S. Records Group 57-15 in the National Archives. Many of the actual photos marked negative destroyed in this list are in the original albums & have been copied by the National Archives. Nellie C. Caries Archives Technician U.S.S. - 4/24/7
