

EXPLANATION		
Recent	Qal	Alluvium
	Qg	High level gravel
Upper Pleistocene	Rs	Shublik formation
	Cl	Lisburne formation
Upper Triassic	Cl	Alapah member
	Clw	
Mississippian	Ck, Ckl, Cks	Wachsmuth member
	C-Dks	Stuver member
Upper Devonian	C-Dk	Middle conglomerate member
	Dkl	Lower conglomerate member

- Anticline, dashed where position is approximate; question mark where doubtful
- Syncline, dashed where position is approximate; question mark where doubtful
- Thrust fault, —| on upper plate
- High angle fault
- Fault showing relative movement
- Concealed fault
- Geologic contact, dashed where approximately located
- Concealed contact
- Approximate contact of gravels and alluvium
- Crumpled beds of fault zones
- Strike and dip of beds
- Fossil locality
- Measured section
- Camp location
