N2224
no. 43
plate 1

- EXPLANATION
- | | |
|--|---|
| Qal | QUATERNARY |
| Alluvium and glacial deposits | |
| Kch | Zone H |
| Kcg | Zone G |
| Kcf | Zone F |
| Kne | Zone E |
| Knd | Zone D |
| Knc | Zone C |
| | CRETACEOUS |
| Lower | |
| Upper | |
| Calville group | |
| Nemurian group | |
| Contact | |
| U | Fault, showing relative movement (Dashed where inferred) |
| | Fault, showing relative horizontal movement (Dashed where inferred) |
| Anticline, showing direction of plunge (Dashed where inferred) | |
| Syncline, showing direction of plunge (Dashed where inferred) | |
| Minor anticline | |
| Minor syncline | |
| Strike and dip of beds | |
| Structure trace and numbered horizon | |
| Structure contour (Dashed where inferred) | |
| Known altitude | |
