INDEX—Continued

Floods and droughts, explanation of .......................... 6
Flow, definition of .................................................. 30
Flow-duration percentiles, definition of ....................... 32
Franklin, NH, ground-water levels in ........................ 254
Franklin Junction, NH, Merrimack River at ............... 92-93
G
Gage datum, definition of ......................................... 32
Gage height, definition of ........................................ 32
Gage values, definition of ......................................... 32
Gaging station, definition of ...................................... 32
Gas chromatography/flame ionization detector, definition of ........................................ 32
Geomorphic channel units, definition of ................... 32
Glover, VT, ground-water levels in ............................ 269
Goffstown, NH, Piscataquog River near .................... 276, 285
Green algae, definition of ......................................... 32
Greenfield, NH, ground-water levels in ....................... 249
Ground-water levels, explanation of .......................... 6
H
Habitat, definition of ................................................ 32
Habitat quality index, definition of ............................ 33
Hampton, NH, Little River at Woodland Road, near .... 76-77
Hardness, definition of ............................................. 33
Hartland, VT, ground-water levels in .......................... 273
Henniker, NH, Contoocook River near ........................ 275, 284
High tide, definition of ............................................ 33
Hilsenhoff’s Biotic Index, definition of ....................... 33
Hinsdale, NH, Ashuelot River at ................................. 171-172
Hooksett, NH, ground-water levels in ........................ 255
Horizontal datum, definition of ................................. 33
Hudson River Basin, maximum discharge at crest-stage partial-record stations ........................................ 279
Paran Creek near South Shaftsbury, VT ..................... 279
Hydrologic conditions, summary of ........................... 4
Hydrologic index stations, definition of ..................... 33
Hydrologic unit, definition of ..................................... 33
I
Inch, definition of ................................................... 33
Instantaneous discharge, definition of ....................... 33
International Boundary Commission Survey Datum, definition of ........................................ 33
Introduction, explanation of ..................................... 1
Isinglass River at Rochester Neck Road near ............... 62-63
Island Pond, VT, Pherrins River Tributary near .......... 281
Island, definition of .................................................. 33
J
Jamaica, VT, West River at ......................................... 163-164
West River Tributary near ........................................ 278
Joes Brook Tributary near East Barnet, VT ................. 276
Johnson, VT, Lamoille River at ................................ 217-218
K
Keene, NH, Ashuelot River below Surry Mountain Dam, near .......................................................... 165-166
ground-water levels in ............................................. 241
Otter Brook below Otter Brook Dam near ................ 167-168
Kent Brook near Killington, VT ................................. 277
Killington, VT, Kent Brook near ................................. 277
Kirby Brook at Concord, VT ........................................ 276
L
Laboratory reporting level, definition of ..................... 33
Lake Bomoseen at Outlet, near Fair Haven, VT ........ 175-176
Lake Champlain at Burlington, VT ............................ 229-230
Lake Memphremagog (head of Magog River) at....... 231-232
Newport, VT ............................................................ 231-232
Lake Winnipesaukee at Weirs Beach, NH .................. 88-89
Lamoille River, at East Georgia, VT ........................... 219-220
at Johnson, VT ......................................................... 217-218
Lamprey River near Newmarket, NH ......................... 70-71
Lancaster, NH, ground-water levels in ....................... 244
Land-surface datum, definition of ............................ 33
LaPlatte River at Shelburne Falls, VT ....................... 191-192
Latent heat flux, definition of ................................... 33
Lee, NH, ground-water levels in ................................. 259
North River above NH 125, near ............................... 66-69
Lewis Creek near North Ferrisburg, VT ..................... 189-190
Lewis Creek Tributary at Starksboro, VT ................. 279
Light-attenuation coefficient, definition of ................ 33
Lincoln, NH, East Branch Pemigewasset River at ....... 78-79
Lipid, definition of .................................................. 34
Lisbon, NH, ground-water levels in ............................ 248
Little Otter Creek at Ferrisburg, VT .......................... 187-188
Little Otter Creek Tributary near Bristol, VT ............. 279
Little River, at Woodland Road, near Hampton, NH .... 76-77
near Waterbury, VT ................................................. 213-214
Long-term method detection level, definition of ......... 34
Lord Brook near Evansville, VT ................................. 281
Low flow, 7-day, 10-year, definition of ...................... 39
Low tide, definition of .............................................. 34
Lyndonville, VT, Quimby Brook near ......................... 276
M
Macrophytes, definition of ....................................... 34
Mad River near Moretown, VT ................................. 205-206
Manchester, NH, Merrimack River near Goffs Falls, below .................................................. 102-103
Marlboro, VT, Whetstone Brook Tributary near .......... 278
Maximum discharge at crest-stage partial-record stations .................................................. 275
Connecticut River Basin ............................................ 276-278
Connecticut River Tributary near Vernon, VT ............. 278
Hudson River Basin ................................................. 279
Merrimack River Basin ............................................. 275-276
St. Lawrence River Basin .......................................... 279-281
Whetstone Brook Tributary near Marlboro, VT .......... 278
Mean concentration of suspended sediment, definition of .................................................. 34
Mean discharge, definition of ................................... 34
Mean high tide, definition of .................................... 34
Mean low tide, definition of ..................................... 34
Mean sea level, definition of ............................................. 34
Measuring point, definition of ........................................... 34
Megahertz, definition of .................................................. 34
Membrane filter, definition of .......................................... 34
Merrimack, NH, Souhegan River at .............................. 104-105
Merrimack River,
at Franklin Junction, NH ......................................... 92-93
near Goffs Falls, below Manchester, NH .......... 102-103
Merrimack River Basin,
discharge measurements at miscellaneous sites ... 282-285
Conotoocook River near Henniker, NH .......... 284
Nubanusit Brook near Peterborough, NH ....... 284
Piscataquog River below Everett Dam,
 near East Weare, NH .............................................. 285
Piscataquog River near Goffstown, NH .......... 285
Spicket River near Methuen, MA ................. 285
Blackwater River near Webster, NH .......... 285
maximum discharge at crest-stage partial-record
stations ................................................................. 275-276
Blackwater River near Webster, NH .......... 275
Conotoocook River near Henniker, NH .......... 275
Nubanusit Brook below Edward MacDowell Dam
 near Peterborough, NH ........................................... 275
Piscataquog River below Everett Dam
 near East Weare, NH .............................................. 275
Piscataquog River near Goffstown, NH ........ 275
Spicket River near Methuen, MA ................. 275
Metamorphic stage, definition of ...................... 34
Method code, definition of ................................. 34
Method detection limit, definition of .............. 34
Method of Cubatures, definition of ................. 34
Methuen, MA, Spicket River near .................... 276, 285
Methylene blue active substances, definition of .... 34
Mettawee River near Pawlet, VT ..................... 179-180
Micrograms per gram, definition of ................. 34
Micrograms per kilogram, definition of .......... 35
Micrograms per liter, definition of ................. 35
Microsiemens per centimeter, definition of .... 35
Middle Branch Williams River Tributary at
Chester, VT .......................................................... 278
Middlebury, VT,
New Haven River at Brooksville near .......... 185-186
Otter Creek at ....................................................... 183-184
Milford, NH, ground-water levels in .............. 250
Milligrams per liter, definition of ................. 35
Milton, NH, Salmon Falls River at ................. 58-59
Milton, VT, ground-water levels in ................ 264
Minimum reporting level, definition of .......... 35
Miscellaneous site, definition of ....................... 35
Missisquoi River,
at Swanton, VT ................................................. 225-226
near East Berkshire, VT ........................................ 223-224
near North Troy, VT .............................................. 221-222
Missisquoi River Tributary at Sheldon Junction, VT 281
Montpelier, VT,
Sunny Brook near .................................................. 280
Winooski River at .................................................... 201-202
Moose River at Victory, VT ................................. 122-123
Moretown, VT, Mad River near ..................... 205-206
Morrisville, VT, ground-water levels in .......... 267
Most probable number, definition of ............... 35
Multiple-plate samplers, definition of .............. 35
N
Nanograms per liter, definition of ................. 35
Nashua, NH, ground-water levels in .............. 251
National Geodetic Vertical Datum of 1929, definition of 35
Natural substrate, definition of ....................... 35
Nekton, definition of ............................................. 35
New Durham, NH, ground-water levels in ....... 260
New Haven River at Brooksville near .......... 275
Middlebury, VT ....................................................... 185-186
New London, NH, ground-water levels in ....... 256
Newmarket, NH, Lamprey River near .......... 70-71
Newport, NH, ground-water levels in ............. 261-262
Newport, VT,
Clyde River at ..................................................... 235-236
Lake Memphremagog (head of Magog River)
at ................................................................. 231-232
Nonfilterable, definition of ................................. 35
North American Datum,
of 1927, definition of ......................................... 35
of 1983, definition of ......................................... 35
North American Vertical Datum of 1988, definition of 35
North Bennington, VT, Walloomsac River near .. 173-174
North Branch Winooski River at Wrightsville, VT 199-200
North Danville, VT, Pope Brook (site W-3) near .. 125-126
North Ferrisburg, VT, Lewis Creek near .......... 189-190
North Hartland, VT, Ottauquechee River at .... 151-152
North Pelham, NH, Beaver Brook at .......... 106-107
North Pownal, VT, ground-water levels in .... 263
North River above NH 125, near Lee, NH ......... 66-69
North Salem, NH, Spicket River at ................. 108-109
North Springfield, VT, Black River at ............ 277-285

Organic carbon, definition of ......................... 36
Organic mass, definition of ................................. 36
Organism count,
Area, definition of ............................................. 36
Total, definition of .............................................. 41
Volume, definition of ........................................... 36
Organochlorine compounds, definition of ....... 36
Ossipee, NH, ground-water levels in ............. 240
Ottauquechee River,
INDEX—Continued

at North Hartland, VT .......................... 151-152
near West Bridgewater, VT ............... 149-150
Ottauquechee River Tributary near Quechee, VT .... 277
Otter Brook below Otter Brook Dam near
Keene, NH ........................................... 167-168
Otter Creek,
at Center Rutland, VT ......................... 181-182
at Middlebury, VT .............................. 183-184
Oyster River near Durham, NH ............ 64-65
P
Parameter code, definition of ................... 36
Paran Creek near South Shaftsbury, VT .... 279
Partial-record station, definition of .......... 36
Particle size, definition of ...................... 36
Particle-size classification, definition of .... 36
Passumpsic River at Passumpsic, VT ........ 129-130
Passumpsic, VT, Passumpsic River at ......... 129-130
Paul Stream Tributary near Brunswick Springs, VT ..... 276
Pawlet, VT, Mettawee River near ............. 179-180
Peak flow, definition of ...................... 36
Peak stage, definition of ...................... 36
Pemigewasset River,
at Plymouth, NH ................................. 84-85
at Woodstock, NH .............................. 80-81
Percent composition, definition of .......... 36
Percent of total, definition of .............. 36
Percent shading, definition of ............... 36
Periodic-record station, definition of ....... 37
Periphyton, definition of ..................... 37
Pesticides, definition of ..................... 37
Peterborough, NH,
Contoocook River at .......................... 94-95
Nubanusit Brook below Edward MacDowell dam
near .................................................... 275
Nubanusit Brook near .......................... 284
pH, definition of ................................... 37
Pherrins River Tributary near Island Pond, VT .... 281
Phytoplankton, definition of .................. 37
Picocurie, definition of ........................ 37
Pike River at East Franklin, near Enosburg Falls,
VT .................................................... 227-228
Piscataqua River,
below Everett Dam near East Weare, NH .... 275, 285
near Goffstown, NH ............................ 276, 285
Pittsburg, NH, Connecticut River below Indian Stream,
near ...................................................... 110-111
Pittsford, VT, ground-water levels in .......... 270
Plankton, definition of .......................... 37
Plymouth, NH, Pemigewasset River at ....... 84-85
Polychlorinated biphenyls, definition of .... 37
Polychlorinated naphthalenes, definition of .... 37
Pool, definition of .................................. 37
Pope Brook (site W-3) near North Danville, VT ... 125-126
Portsmouth, NH, Winnicut River at Greenland, near 74-75
Potash Brook at Queen City Park Road near
Burlington, VT ..................................... 193-194
Poultney River below Fair Haven, VT .......... 177-178
Poultney River Tributary at East Poultney, VT .... 279
Primary productivity, definition of .......... 37
Carbon method, definition of ................ 37
Oxygen method, definition of .............. 37
Q
Quechee, VT, Ottauquechee River Tributary near ... 277
Quimby Brook near Lyndonville, VT .......... 276
R
Radioisotopes, definition of .................. 37
Ranch Brook at Ranch Camp, near Stowe, VT ... 209-210
Randolph, VT,
Ayers Brook at ..................................... 141-142
Third Branch White River Tributary at ....... 277
Reach, definition of ................................ 38
Recoverable, definition of .................... 38
Recurrence interval, definition of ............ 38
Replicate samples, definition of ............ 38
Reservoir storage, explanation of ............ 6
Reservoirs in Winooski River Basin above
Montpelier, VT ...................................... 197
Return period, definition of .................. 38
Richford, VT, Whittaker Brook at ............. 280
Richmond, VT, Winooski River Tributary near .... 280
Riffle, definition of ................................ 38
River mileage, definition of .................. 38
Rochester, NH, Cochecho River near .......... 60-61
Rochester, VT, ground-water levels in .......... 274
Rockingham, VT, Williams River near ........... 156-157
Rumney, NH, Baker River near ............... 82-83
Run, definition of .................................. 38
Runoff, definition of .............................. 38
S
Salmon Falls River at Milton, NH ............. 58-59
Saxtons River at Saxtons River, VT .......... 158-159
Saxtons River, VT, Saxtons River at .......... 158-159
Screened interval, definition of ............... 35
Sea level, definition of .......................... 38
Sediment, definition of .......................... 39
Sensible heat flux, definition of ............... 39
Seven-day, 10-year low flow, definition of .... 39
Shelburne Falls, VT, LaPlatte River at .......... 191-192
Shelburne, NH, ground-water levels in ......... 245
Sheldon Junction, VT, Missisquoi River Tributary at ... 281
Shelves, definition of .............................. 39
Sleepers River (site W-5) near St. Johnsburg, VT . 127-128
Smith River near Bristol, NH .................. 86-87
Sodium adsorption ratio, definition of ......... 39
Soil heat flux, definition of .................... 39
Soil-water content, definition of ............. 39
Soucook River at Pembroke Road near Concord,
NH ..................................................... 100-101
Souhegan River at Merrimack, NH ........... 104-105
South Shaftsbury, VT, Paran Creek near ........ 279
South Tamworth, NH, Bearcamp River at ........ 56-57
Specific electrical conductance (conductivity),
INDEX—Continued

Spicket River,
  at North Salem, NH .......................... 108-109
  near Methuen, MA ......................... 276, 285
St. Johnsbury, VT, Sleepers River (site W-5) near 127-128
St. Lawrence River Basin,
  maximum discharge at crest-stage partial-record stations ......... 279-281
  Bailey Brook at East Hardwick, VT ........ 280
  Brandy Brook at Bread Loaf, VT .......... 279
  Brownington Branch near Evansville, VT . 281
  Bryant Brook at Waterbury Center, VT .... 280
  Lewis Creek Tributary at Starksboro, VT .. 279
  Little Otter Creek Tributary near Bristol, VT .................. 279
  Lord Brook near Evansville, VT .......... 281
Missisquoi River Tributary at Sheldon Junction, VT .................. 281
Pherrins River Tributary near Island Pond, VT ...................... 281
Poultney River Tributary at East Poultney, VT ...................... 279
Stony Brook near Eden, VT .................................. 280
Sunny Brook near Montpelier, VT .................................. 280
Whittaker Brook at Richford, VT .................................. 280
Winooski River Tributary near Richmond, VT ....................... 280
Stowe, VT,
  Ranch Brook at Ranch Camp, near .. 209-210
  West Branch Little River above Bingham Falls near .............. 207-208
Streamflow,
  definition of .................................. 39
  explanation of ................................ 4
Substrate,
  definition of .................................. 39
  Artificial, definition of ...................... 27
  Natural, definition of ....................... 35
Substrate embeddedness class, definition of .................. 39
Sugar River at West Claremont, NH .............................. 153-154
Summary of hydrologic conditions, explanation of ............. 4
Sunny Brook near Montpelier, VT ................................. 280
Surface area of a lake, definition of ............................. 39
Surficial bed material, definition of ............................. 40
Surrogate, definition of .................................. 40
Suspended, definition of .................................. 40
  Recoverable, definition of ...................... 40
  Total, definition of ................................ 40
Suspended sediment, definition of ................................ 40
Suspended-sediment concentration, definition of ................ 40
Suspended-sediment discharge, definition of .................... 40
Suspended-sediment load, definition of .......................... 40
Suspended solids, total residue at 105°C concentration,
  definition of .................................. 40
Swanton, VT, Missisquoi River at ................... 225-226
Synoptic studies, definition of ................................ 40
T
  Taxa (Species) richness, definition of ................. 40
  Taxonomy, definition of ................................ 40
  Thalweg, definition of .............................. 41
  Thermograph, definition of ............................. 41
  Third Branch White River Tributary at Randolph, VT • 277
  Tilton, NH, Winnipesaukee River at .................. 90-91
  Time-weighted average, definition of ................. 41
  Tons per acre-foot, definition of .................... 41
  Tons per day, definition of ............................ 41
  Total, definition of .................................. 41
  Total coliform bacteria, definition of .................. 41
  Total discharge, definition of .......................... 41
  Total in bottom material, definition of .................. 41
  Total length, definition of ............................. 41
  Total load, definition of ............................. 41-42
  Total organism count, definition of .................... 41
  Total recoverable, definition of ........................ 41
  Total sediment discharge, definition of ................. 42
  Total sediment load, definition of ..................... 42
  Townshend, VT, West River below Townshend Dam near .... 278, 286
  Transect, definition of ............................. 42
  Turbidity, definition of ................................ 42
U
  Ultraviolet (UV) absorbance (absorption), definition of .... 43
  Unconfined aquifer, definition of ..................... 43
  Unfiltered, definition of ............................. 43
  recoverable, definition of ............................ 43
Union Village, VT, Ompompanoosuc River at ............. 277, 285
V
  Vernon, VT, Connecticut River Tributary near ................ 278
  Vertical datum, definition of .......................... 43
  Victory, VT, Moose River at ......................... 122-123
  Volatile mass, definition of ............................ 36
  Volatile organic compounds, definition of .............. 43
W
  Waits River Tributary near West Topsham, VT ............... 277
  Waitsfield, VT, ground-water levels in ................. 271
  Walloomsac River near North Bennington, VT ............ 173-174
  Warner River at Davison, NH .......................... 98-99
  Warner, NH, ground-water levels in ..................... 257
  Water table, definition of ............................. 43
  Water-table aquifer, definition of ..................... 43
  Water year, definition of ............................. 43
  Waterbury Center, VT, Bryant Brook at ................ 280
  Waterbury Reservoir (head of Little River) near ........ 211-212
  Waterbury, VT ...................................... 211-212
  Waterbury, VT, Little River near ...................... 213-214
  Waterbury Reservoir (head of Little River) near .... 211-212
  Watershed, definition of ............................. 43
  WDR, definition of ................................ 43
  Webster, NH, Blackwater River near .................. 275, 285
  Weighted average, definition of ...................... 43
Weirs Beach, NH, Lake Winnipesaukee at ............... 88-89
Wells River at Wells River, VT ......................... 137-138
Wells River, VT,
   Connecticut River at ............................... 134-135
   Wells River at .................................... 137-138
West Branch Little River above Bingham Falls near
   Stowe, VT ........................................... 207-208
West Bridgewater, VT, Ottauquechee River near .... 149-150
West Claremont, NH, Sugar River at ................... 153-154
West Fairlee, VT, ground-water levels in .............. 268
West Hartford, VT, White River at .................... 144-145
West Hopkinton, NH, Contoocook River below
   Hopkinton Dam, at ................................ 96-97
West Lebanon, NH, Connecticut River at ............... 147-148
West River,
   at Jamaica, VT ..................................... 163-164
   below Townshend Dam near Townshend,
   VT .................................................. 278, 286
West River Tributary near Jamaica, VT ................. 278
West Swanzey, NH, Ashuelot River at ................. 169-170
West Topsham, VT, Waits River Tributary near ....... 277

Wet mass, definition of ................................. 43
Wet weight, definition of ............................... 43
Whetstone Brook Tributary near Marlboro, VT ....... 278
White River at West Hartford, VT ..................... 144-145
Whittaker Brook at Richford, VT ....................... 280
Williams River near Rockingham, VT .................. 156-157
Winnicutt River at Greenland, near Portsmouth, NH . 74-75
Winnipesaukee River at Tilton, NH ..................... 90-91
Winooski River,
   at Montpelier, VT .................................. 201-202
   near Essex Junction, VT ............................ 215-216
Winooski River Basin above Montpelier, VT,
   reservoirs in ...................................... 197
Winooski River Tributary near Richmond, VT ......... 280
Woodstock, NH, Pemigewasset River at ................ 80-81
Wrightsville Detention Reservoir at Wrightsville, VT . 197
Wrightsville, VT, North Branch Winooski River at .... 199-200
WSP, definition of .................................... 43
Z
Zooplankton, definition of .............................. 43
