

The following surface-water, water-quality, sediment, and biological stations have been operated in and adjacent to Wyoming. The listing includes both discontinued and currently active stations. Reservoir stations are included also. Records have been collected and published for the period of record, expressed in calendar years, shown for each station. The listing is limited to those stations that have been of systematic data-collection monitoring networks. Miscellaneous sites are not included. [--, drainage area not determined or no record available]
