

EXPLANATION

○ Observation well

— 60 — Potentiometric contour

Shows altitude at which water level would have stood in tightly cased wells. Contour interval 5 and 10 feet. Dashed where inferred. Datum is mean sea level. Hachures indicate depressions.

Boundary of Southwest Florida Water Management District

Boundary of Water Management Basin

The contours shown on this map reflect the regional configuration of the potentiometric surface and are generalized through areas where closely spaced wells are intensively pumped.
