

MEAN SCALE: 1:40 000 000 (approx.)

EXPLANATION

-  CO<sub>2</sub> discharges
-  Zone of seismicity
-  Alpine-type ultramafic rocks
-  Blueschist

Data for zones of seismicity are from Tarr (1974), Lee and others (1975), Fairhead and Henderson (1973), and NOAA (1970). Blueschist and alpine-type ultramafic rocks are from Irwin and Coleman (1972) with additional blueschist localities in central USSR from Dobretsov (written communication, 1972).

Base modified from U.S. Air Force Global Chart of the World, Revision of 1958.

MAP SHOWING WORLD DISTRIBUTION OF CARBON-DIOXIDE SPRINGS AND MAJOR ZONES OF SEISMICITY
