

LOCATION OF WELLS AND TEST HOLES

This map shows the location of wells and test holes from which information was obtained to produce sheets 1 and 3. The well- and test-hole data are on file at the U.S. Geological Survey office in Ithaca, N.Y.

EXPLANATION

TYPE OF WELL AND WELL-NUMBERING SYSTEM

- 06-42 WELL THAT TAPS UNCONSOLIDATED MATERIAL
- 28-33 WELL THAT TAPS BEDROCK
- ⊕ 34-13b TEST HOLE
- BASIN BOUNDARY

The well-numbering system of the U.S. Geological Survey assigns the latitude and longitude, in degrees, minutes, and seconds, to the well. Well numbers shown on the map are four-digit hyphenated numbers representing the seconds of latitude and longitude. For example, a well with a latitude of 78°10'06" and a longitude of 44°11'42" is shown on the map as 06-42. The degrees and minutes are indicated by the latitude and longitude marks along the border.

LAKE ONTARIO

Base from Army Map Service, Rochester, 1961 and Utica, 1960, 1:250,000 scale

GROUND-WATER AVAILABILITY IN THE EASTERN PART OF THE LAKE ONTARIO BASIN, NEW YORK
