LOCATION OF WELLS

This map shows the location of wells from which information was obtained to prepare sheets 1 and 2. The well data are on file at the U.S. Geological Survey office in Albany, N.Y.

EXPLANATION

The well symbols on the map were based on the location and completion of the degree of confidence, character, and emotional of the well. Well numbers shown here are forty-five, which number represents the degree of confidence. The map was prepared under a contract of N.Y.S. in New York, New York, and the map is not to be used for any purpose other than that of location of wells.
