

	Page
11. The comparison of 7-day average discharges computed by a relation of simulated and tributary discharges with simulated 7-day average flows for the 1986 water year for the Atlantic Intracoastal Waterway near Myrtle Beach, South Carolina.....	28
12. Seven day low-flow frequency curve for the Atlantic Intracoastal Waterway near Myrtlewood Golf Course (02110760), South Carolina .....	29
13. Relation between specific conductance and chloride concentrations in the Atlantic Intracoastal Waterway .....	31
14. Vertical change in specific conductance at indicated Atlantic Intracoastal Waterway mile points for different daily mean discharges.....	32
15. Longitudinal change in specific conductance for indicated average discharge in the Atlantic Intracoastal Waterway.....	33
16. Location of saltwater-freshwater interface and daily mean discharge in the Atlantic Intracoastal Waterway for the 1982 water year.....	34
17. Comparisons of specific conductance with water discharge and stage, September 16-18, 1982 .....	35
18. Relation of the location of the saltwater-freshwater interface to specific conductance at Vereen's Marina (02110730).....	37
19. Relation of the 7-day average mile position of the saltwater-freshwater interface to the 7-day average discharge of the Atlantic Intracoastal Waterway for 1982-85 water years near Myrtle Beach, South Carolina.....	38
20. Comparison of the 7-day average maximum daily mile of the saltwater-freshwater interface computed by a relation to discharge with the position computed by a relation to specific conductance at Vereen's Marina (02110730), South Carolina for the 1986 water year.....	39
21. Flow-duration hydrographs of computed running 7-day average discharges for indicated percentiles for the 1953-1986 water years and the running 7-day average discharge hydrograph for the 1983 calendar year for the Atlantic Intracoastal Waterway.....	40
22. Relation of the maximum daily mile position of the freshwater-saltwater interface to the 7-day average of the maximum daily mile position for 1982-86 water years for the Atlantic Intracoastal Waterway.....	42
