

A. Chloride concentrations in surface water and treated source water

B. Chloride concentrations in water from monitoring wells

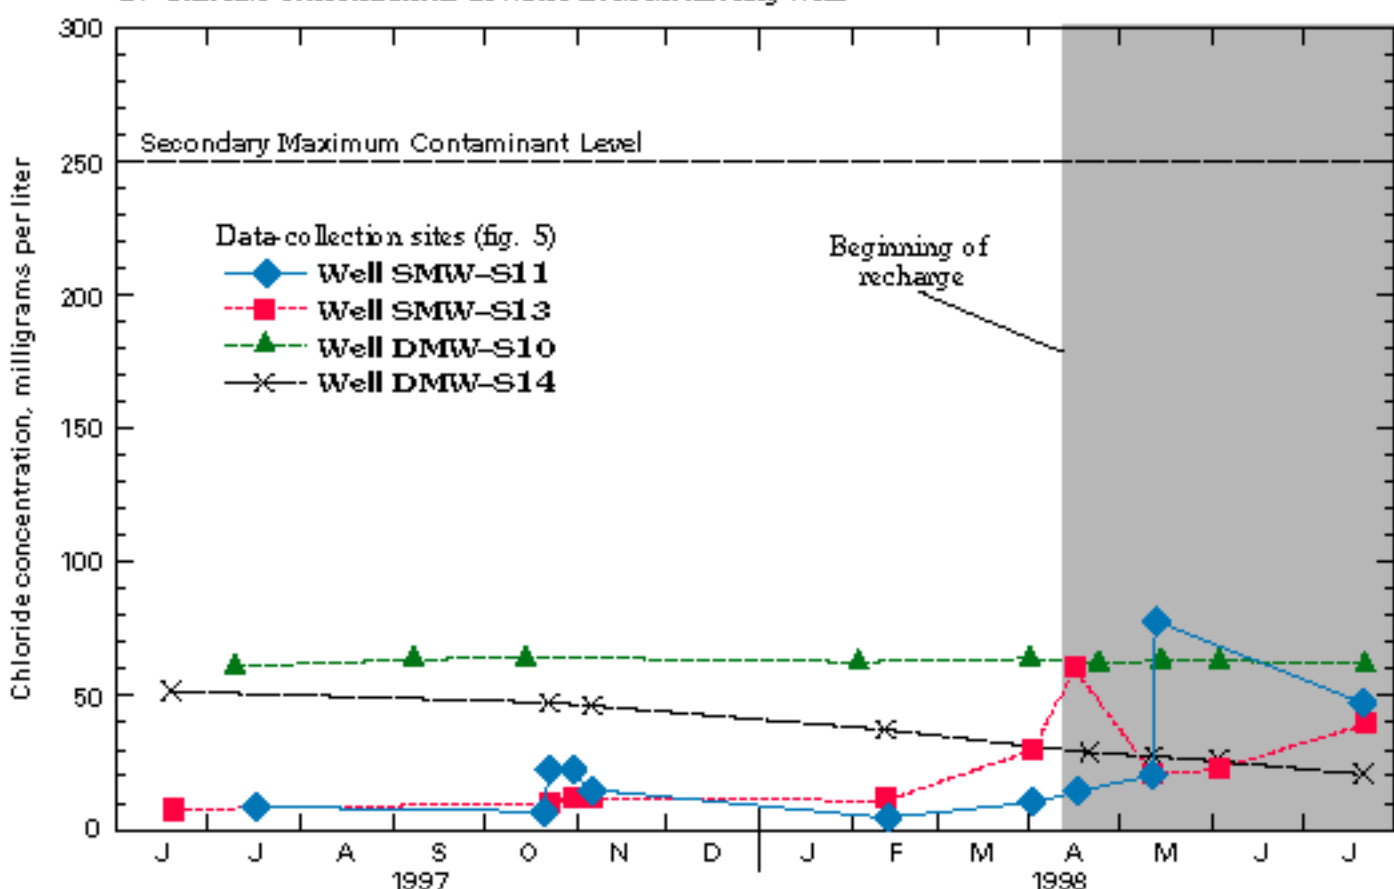

Figure 24. Comparison of chloride concentrations (A) in surface water and treated source water from Little Arkansas River and in (B) water from monitoring wells at Sedgwick recharge site, June 1997-July 1998. Secondary Maximum Contaminant Level from U.S. Environmental Protection Agency (1999). Data-collection sites shown in figure 5.
