

DEPARTMENT OF THE INTERIOR

FRANKLIN K. LANE, Secretary

UNITED STATES GEOLOGICAL SURVEY

GEORGE OTIS SMITH, Director

Water-Supply Paper 400

CONTRIBUTIONS TO THE HYDROLOGY
OF THE UNITED STATES

1916

NATHAN C. GROVER, Chief Hydraulic Engineer

WASHINGTON

GOVERNMENT PRINTING OFFICE

1917

NOTE.—The papers included in the annual volume "Contributions to the hydrology of the United States" are issued separately, with the final pagination, as soon as they are ready. The last paper will include a volume title-page, table of contents, and index for the use of those who may wish to bind the separate parts. A small edition of the bound volume will also be issued, but copies can not be supplied to those who have received all the parts.

CONTENTS.

[The letters in parentheses preceding the titles are those used to designate the papers for advance publication.]

	Page.
(A) The people's interest in water-power resources, by G. O. Smith (published Jan. 10, 1916).....	1
(B) Artesian water for irrigation in Little Bitterroot Valley, Mont., by O. E. Meinzer (published Nov. 22, 1916).....	9
(C) The measurement of silt-laden streams, by R. C. Pierce (published Nov. 4, 1916).....	39
(D) Accuracy of stream-flow data, by N. C. Grover and J. C. Hoyt (published Dec. 2, 1916).....	53
(E) Ground water for irrigation in the Morgan Hill area, Cal., by W. O. Clark (published Mar. 10, 1917).....	61
Index.....	107

ILLUSTRATIONS.

	Page.
PLATE I. Map of Little Bitterroot Valley and adjacent areas in Montana, showing geology and artesian-water conditions.	10
II. A, Shore lines of ancient Lake Missoula; B, Stratified beds deposited in ancient Lake Missoula.....	12
III. A, Valley of Flathead River at bend above Sloan Ferry, Mont., showing wide flood plain and spit on concave side of river with steep cliffs on convex side; B, Valley of Flathead River at Sloan Ferry, Mont., incised in the till and lake beds underlying the ancient lake plain.....	14
IV. Abandoned channel of Little Bitterroot River at Sloan Ferry, Mont..	16
V. Map of Morgan Hill area, Cal., and tributary drainage basins.	62
VI. Map of Morgan Hill area, Cal., showing position of the water table during the low stage in the fall of 1914.....	64
VII. Map of Morgan Hill area, Cal., showing fluctuations of the water table and its position during the high stage in March, 1916.....	66
FIGURE 1. Map showing drainage basin of Little Bitterroot River and adjacent region, Mont.	10
2. Sketch map of vicinity of Sloan Ferry, Mont., showing abandoned channel of Little Bitterroot River.....	13
3. Diagram showing relation of natural flow to estimated head in several wells in Little Bitterroot Valley, Mont.....	27
4. Diagram showing relations between temperature of artesian water and flow of artesian wells in Little Bitterroot Valley, Mont.....	33

	Page.
FIGURE 5. Vertical velocity curves, San Juan River near Bluff, Utah.....	48
6. Rating, area, and velocity curves, San Juan River near Bluff, Utah.....	49
7. Diagram showing precipitation on, run-off from, and ground-water recharge from mountain area of drainage basin of Coyote River, Morgan Hill area, Cal.....	75
8. Diagram showing relation between amount of precipitation on the mountain area of the Coyote River drainage basin, Cal., and percentage of run-off therefrom.....	76
9. Profiles of surface and water table along line ABC shown in Plates VI and VII.....	77
10. Diagram showing fluctuations of water levels in wells in Morgan Hill area, Cal.....	79
11. Section and sketch map showing effect on water table produced by pumping test of Bay Cities Water Co. at the lower gorge of Coyote River, Morgan Hill area, Cal., Nov. 8, 1904, to Jan. 16, 1905.....	85
