

LEGEND

- SEDIMENTARY ROCKS**
- Qal  
Alluvium
  - Tt  
Truckee formation  
(Lake deposits of Miocene age)
  - ml  
Limestone, shale, and sandstone
  - pls  
Limestone, slate, and quartzite
- IGNEOUS ROCKS**
- Tiv  
Lavas, chiefly rhyolite
  - gtr  
Granitoid rocks
- ECONOMIC FEATURES**
- 21 9'  
Flowing well  
21, Well number  
11', Depth to water table  
in feet
  - 64 5'  
Nonflowing well  
64, Well number  
5', Depth to water table  
in feet
  - 65 9  
Spring  
65, Spring number
  - Irrigated areas, 1916  
(In most of these areas the water table  
is within 10 feet of the surface)
  - Other areas in which the water table  
is within 10 feet of the surface
  - Drainage divide
  - First-class road
  - Second-class road

RECONNAISSANCE MAP  
OF  
REESE RIVER BASIN  
AND ADJACENT PORTIONS OF  
HUMBOLDT RIVER BASIN  
NEVADA

SHOWING GEOLOGY AND WATER RESOURCES  
By G. A. WARING

Geology based on work of Fortieth Parallel Survey

That part of base south of Derringer Ranch  
from Tonopah topographic sheet;  
rest of area from field maps  
by G.A.Waring
