

KEY TO WATERSHEDS

EXPLANATION

-  Reservoir owned by power company
-  Conduit
-  Single circuit pole line
-  Watershed line
-  Subordinate watershed line
-  Sketch contours
-  National forest boundary
-  Mean seasonal rainfall

Prepared by U. S. Forest Service from the following sources:
Topography from U. S. Geological Survey topographic and reconnaissance maps. Since the General Land Office plats and the topography of the reconnaissance maps did not fit closely all land lines have been omitted and the location of forest boundaries is only approximate.
Data for power developments furnished by various companies.

MAP OF DRAINAGE BASINS OF
BUTTE CREEK AND
WEST BRANCH OF FEATHER RIVER, CALIFORNIA
SHOWING HYDRO-ELECTRIC DEVELOPMENTS

Scale 1:250,000
0 1 2 3 4 5 6 Miles
Contour interval 1,000 feet
